Subject: Health services on public school campuses		

HEALTH/SCHOOL CLINICS RE1 SEE FISC NOTE LF EX Page 1 of 1
 Provides relative to school-based health center services provided to students

Proposed legislation establishes a framework governing school-based health center services for students. Provides that students may access medically necessary services on school campuses with parental consent and prohibits school personnel from restricting such access. Applies to services delivered through school-based health centers or other provider arrangements, but does not require schools to establish or provide such services. Requires school governing authorities to adopt policies that do not create barriers to care and authorizes schools and school-based health centers to collaboratively develop visitation and treatment schedules that consider medical necessity, instructional time, and school operations. Further provides that consent may be revoked at any time and limits disclosure of protected health information.

EXPENDITURE EXPLANATION

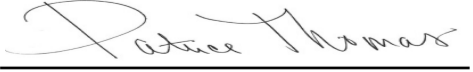

Proposed legislation is not anticipated to result in a material direct cost to public school governing authorities, as it does not mandate the establishment, provision, or funding of school-based health center services. School governing authorities may experience a minor increase in administrative workload associated with policy development, implementation, and scheduling coordination with school-based health centers; however, these responsibilities are expected to be absorbed within existing resources.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.

Senate Dual Referral Rules
 13.5.1 >= \$100,000 Annual Fiscal Cost {S & H}
 13.5.2 >= \$500,000 Annual Tax or Fee Change {S & H}

House
 6.8(F)(1) >= \$100,000 SGF Fiscal Cost {H & S}
 6.8(G) >= \$500,000 Tax or Fee Increase or a Net Fee Decrease {S}
