EXPENDITURE EXPLANATION

Proposed law may result in an indeterminable increase in SGF expenditures in the Department of Public Safety & Corrections-Corrections Services (DPS&C-CS), to the extent that a person is convicted of wearing a mask with the intent to evade identification when committing a felony or other offense while participating in a riot, inciting a riot, or failing to comply with a lawful command to disperse, or is guilty of wrongful use of public property. Proposed law has the effect of adding a sentence of imprisonment to the sentence imposed for the underlying felony offense and is a relative felony. Any impact on either state or local expenditures is contingent on whether offenders sustain either misdemeanor or felony-grade convictions for their violation. The exact fiscal impact to DPS&C-CS is indeterminable, as it is unknown how many people will be convicted or the length of the sentences assessed with those convictions as a result of its potential enactment. The maximum imprisonment term for violation of the proposed law is two years.

To the extent that offenders sustain a felony-grade conviction for violation of the proposed law, DPS&C-CS will sustain an indeterminable increase in expenditures. For those convicted, sentenced, and then subsequently housed in a state facility, DPS&C-CS will sustain expenditures of \$107.60 per offender per day. For those housed in local facilities, DPS&C-CS will sustain expenditures of \$29.39 per offender per day. DPS&C-CS advises that impacts on offender populations are anticipated to impact the number of offenders held in local facilities, and that in managing its offender population, it seeks to fill all beds in state facilities first, then assigns overflow offenders to local facilities.

To the extent that offenders sustain a misdemeanor conviction for violation of the proposed law, local governing authorities will sustain Local Funds expenditures. The exact fiscal impact of the passage of this legislation to local governing authorities is indeterminable, since it is not known how many people will be convicted and incarcerated in local facilities, nor the length of the sentences assessed with those convictions as a result of its potential enactment.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
