Proposed law retains present law and further authorizes members of the legislature to receive the GSA rate for per diem for no more than 10 days a month when engaged in official legislative business on days not in attendance on the body.

Present law provides that in addition to per diem and all other allowances provided by law for members of the legislature, each member of the legislature, except the president and the president pro tempore of the Senate and the speaker and the speaker pro tempore of the House of Representatives, shall be paid a salary in the full sum of \$16,800 per year.

Proposed law retains present law.

Present law provides that in addition to the per diem and salary and all other allowances provided by law for members of the legislature, each member shall be paid a mileage allowance for trips to and from the capitol during sessions of the legislature, regardless of the method of transportation, equal to the GSA standard mileage rate for business travel. Provides that such mileage allowance shall be paid for a number of trips not to exceed the number of calendar weeks, or fraction thereof, of the session.

Proposed law retains present law.

Present law provides that during the interim between sessions each member shall also be paid, for actual attendance at meetings of legislative committees of which he is a member, a mileage allowance equal to the GSA standard mileage rate for business travel for actual travel to and from the site of such meetings.

Proposed law retains present law and further authorizes members of the legislature to receive the same mileage allowance up to 10 days per month for any meeting or activity when engaging in official legislative business.

Present law provides that the mileage allowance for legislative committee meetings shall be paid only upon the filing by the member with the respective presiding officer of a voucher for each such meeting. Further provides that the legislature or either house may, by appropriate resolution, provide that no mileage allowance shall be paid in the case of particular committees or particular meetings.

Proposed law retains present law and requires the member to file a voucher for payment of the mileage allowance provided for by proposed law.

Present law provides that in addition to the salary, compensation, and all other allowances provided by law for members of the legislature, each member of the legislature shall be paid a monthly expense allowance in the amount of \$500 per month for expenses in connection with the holding or conduct of their office.

Proposed law retains present law and further provides that the expense allowance shall be adjusted for inflation on Jan. first of each year by the change in the consumer price index - U.S. city average for all urban consumers (CPI-U), applied annually and shall reflect the change, if any, since the amount was last modified, provided that any adjustment in a monthly amount shall only be made in whole increments of \$100.

Present law requires that the president of the Senate and the speaker of the House of Representatives be reimbursed for housing expenses when maintaining a residence in the capital city, not to exceed \$1,000 per month. Requires the president of the Senate and the speaker of the House of Representatives to file an itemized statement of expenses and appropriate invoices or receipts.

Proposed law changes present law by extending the housing allowance for reimbursement of housing expenses when maintaining a residence in the capital city to all members of the legislature, not to exceed \$1,000 per month. Requires an itemized statement but no longer requires expenses to be listed or the production of invoices or receipts.
