EXPENDITURE EXPLANATION
 There is no anticipated direct material effect on governmental expenditures as a result of this measure.

REVENUE EXPLANATION
 Proposed law may result in a decrease in Local Funds revenues for airports or local governing authorities that currently use automatic dependent surveillance-broadcast (ADS-B) systems to collect fees or taxes. Proposed law prohibits entities from using ADS-B systems to collect fees or taxes on small airplanes that operate under 14 CFR Part 91 or 14 CFR Part 141. The Louisiana Airport Managers Association reports that at least two airports in Louisiana are using ADS-B to charge landing fees, but most of these fees are waived for the small airplanes that operate under 14 CFR Part 91 or 14 CFR Part 141. The exact fiscal impact is indeterminable, as it is unknown the exact number of publicly owned airports that collect landing fees on these aircraft, or how many local governing authorities collect taxes using ADS-B, and how much revenue each entity is currently collecting using ADS-B.
