

RÉSUMÉ DIGEST

ACT 425 (HB 280)

2026 Regular Session

Fontenot

Existing law (R.S. 15:574.4) provides requirements that a juvenile offender must meet in order to gain parole eligibility. Such requirements include obtaining a low risk determination; not committing any major disciplinary violations for 36 months prior to the parole hearing; completing 100 hours of pre-release programming; completing substance abuse training, if applicable; and completing at least one other type of program.

New law removes duplicative language and provides a citation reference to the requirements contained in existing law.

New law deletes a provision requiring a reentry program to be determined by the Dept. of Public Safety and Corrections (DPS&C).

Effective August 1, 2026.

(Amends R.S. 15:574.4(B)(2), (D)(1), (E)(1), (F)(1), (G)(1), and (J)(1))
