## EXPENDITURE EXPLANATION

Election expenses for a statewide election are projected to be $\$ 3,119,707$. Since a provision in this bill limits the number of commissioners in certain precincts, the agency anticipates a $\$ 396,500$ savings in the regularly budgeted election expenses. In addition to the election expenses, $\$ 125,000$ for ballot printing and precinct supplies is also required.
This would be the cost of holding a statewide election regardless of when the election would be held.

## REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
