GERMAIN, TALBOT, TEMPLET, TRAHAN, TUCKER, WHITE, WILLMOTT, AND WOOTON

APPROPRIATIONS: Provide for the ordinary operating expenses of state government for Fiscal Year 2008-2009

1 AN ACT

2 Making appropriations for the ordinary expenses of the executive branch of state  
3 government, pensions, public schools, public roads, public charities, and state  
4 institutions and providing with respect to the expenditure of said appropriations.

5 Be it enacted by the Legislature of Louisiana:

6 Section 1. The appropriations in this Act from state revenue shall be payable out of the  
7 sources specified and shall be limited by the provisions of Article VII, Section 10(D) of the  
8 Louisiana Constitution.

9 Section 2. All money from federal, interagency, statutory dedications, or self-generated  
10 revenues shall be available for expenditure in the amounts herein appropriated. Any increase  
11 in such revenues shall be available for allotment and expenditure by an agency on approval  
12 of an increase in the appropriation by the commissioner of administration and the Joint  
13 Legislative Committee on the Budget. Any increase in such revenues for an agency without  
14 an appropriation from the respective revenue source shall be incorporated into the agency's  
15 appropriation on approval of the commissioner of administration and the Joint Legislative  
16 Committee on the Budget. In the event that these revenues should be less than the amount  
17 appropriated, the appropriation shall be reduced accordingly. To the extent that such funds

1 were included in the budget on a matching basis with state funds, a corresponding decrease  
2 in the state matching funds may be made. Any federal funds which are classified as disaster  
3 or emergency may be expended prior to approval of a BA-7 by the Joint Legislative  
4 Committee on the Budget upon the secretary's certifying to the governor that any delay  
5 would be detrimental to the state. The Joint Legislative Committee on the Budget shall be  
6 notified in writing of such declaration and shall meet to consider such action, but if it is  
7 found by the committee that such funds were not needed for an emergency expenditure, such  
8 approval may be withdrawn and any balance remaining shall not be expended.

9 Section 3.A. Notwithstanding any other law to the contrary, the functions of any  
10 department, agency, program, or budget unit of the executive branch, except functions in  
11 departments, agencies, programs, or budget units of other statewide elected officials, may  
12 be transferred to a different department, agency, program, or budget unit for the purpose of  
13 economizing the operations of state government by executive order of the governor.  
14 Provided, however, that each such transfer must, prior to implementation, be approved by  
15 the commissioner of administration and Joint Legislative Committee on the Budget. Further,  
16 provided that no transfers pursuant to this Section shall violate the provisions of Title 36,  
17 Organization of the Executive Branch of State Government.

18 B. In the event that any agency, budget unit, program, or function of a department is  
19 transferred to any other department, agency, program, or budget unit by other Act or Acts  
20 of the legislature, the commissioner of administration shall make the necessary adjustments  
21 to appropriations through the notification of appropriation process, or through approval of  
22 mid-year adjustments. All such adjustments shall be in strict conformity with the provisions  
23 of the Act or Acts which provide for the transfers.

24 C. Notwithstanding any other law to the contrary and before the commissioner of  
25 administration shall authorize the purchase of any luxury or full-size motor vehicle for  
26 personal assignment by a statewide elected official other than the governor and lieutenant  
27 governor, such official shall first submit the request to the Joint Legislative Committee on  
28 the Budget for approval. Luxury or full-sized motor vehicle shall mean or refer to such  
29 vehicles as defined or used in rules or guidelines promulgated and implemented by the  
30 Division of Administration.

1 Section 4. Each schedule as designated by a five-digit number code for which an  
2 appropriation is made in this Act is hereby declared to be a budget unit of the state.

3 Section 5.A. The program descriptions, account descriptions, general performance  
4 information, and the role, scope, and mission statements of postsecondary education  
5 institutions contained in this Act are not part of the law and are not enacted into law by  
6 virtue of their inclusion in this Act.

7 B. Unless explicitly stated otherwise, each of the program objectives and the associated  
8 performance indicators contained in this Act shall reflect the key performance standards to  
9 be achieved for the 2008-2009 Fiscal Year and shall constitute the set of key objectives and  
10 key performance indicators which are reportable quarterly for Fiscal Year 2008-2009 under  
11 the Louisiana Governmental Performance and Accountability Act, particularly R.S. 39:2(23)  
12 and (24) and R.S. 39:87.3. In the event that a department, agency, program, or governing  
13 board or commission is directed by language in this Act to prepare and submit new or  
14 modified performance information, including but not limited to key and supporting  
15 objectives, performance indicators, and performance standards, such submission shall be in  
16 a format and method to be determined by the commissioner of administration. Unless  
17 otherwise specified in this Act, the submission of new or modified performance information  
18 shall be made no later than August 15, 2008. Such performance information shall be subject  
19 to the review and approval of both the Division of Administration and the Joint Legislative  
20 Committee on the Budget, or a subcommittee thereof.

21 Section 6. Unless expressly provided in this Act, funds cannot be transferred between  
22 departments or schedules receiving appropriations. However, any unencumbered funds  
23 which accrue to an appropriation within a department or schedule of this Act due to policy,  
24 programmatic, or cost-saving/avoidance measures may, upon approval by the commissioner  
25 of administration and the Joint Legislative Committee on the Budget, be transferred to any  
26 other appropriation within that same department or schedule. Each request for the transfer  
27 of funds pursuant to this Section shall include full written justification. The commissioner  
28 of administration, upon approval by the Joint Legislative Committee on the Budget, shall  
29 have the authority to transfer between departments funds associated with lease agreements  
30 between the state and the Office Facilities Corporation.

1 Section 7. The state treasurer is hereby authorized and directed to use any available  
2 funds on deposit in the state treasury to complete the payment of General Fund  
3 appropriations for the Fiscal Year 2007-2008, and to pay a deficit arising there from out of  
4 any revenues accruing to the credit of the state General Fund during the Fiscal Year 2008-  
5 2009, to the extent such deficits are approved by the legislature. In order to conform to the  
6 provisions of P.L. 101-453, the Cash Management Improvement Act of 1990, and in  
7 accordance with the agreement to be executed between the state and Financial Management  
8 Services, a division of the U.S. Treasury, the state treasurer is hereby authorized to release  
9 checks drawn on federally funded appropriations prior to the receipt of funds from the U.S.  
10 Treasury.

11 Section 8.A.(1) The figures in parentheses following the designation of a program are  
12 the total authorized positions for that program. If there are no figures following a  
13 department, agency, or program, the commissioner of administration shall have the authority  
14 to set the number of positions.

15 (2) Any transfer of personnel pursuant to the authority of this Act or any other law shall

28 the funds, the transferring agency shall demand that any unexpended funds be returned to  
29 the state treasury unless approval to retain the funds is obtained from the division of

1 audited in accordance with R.S. 24:513. If the amount of the public funds received by the  
2 provider is below the amount for which an audit is required under R.S. 24:513, the  
3 transferring agency shall monitor and evaluate the use of the funds to ensure effective  
4 achievement of the goals and objectives.

 44 follows:

45 If the hospital's qualifying uninsured cost is less than 3.5 percent of total hospital cost, the  
 46 payment shall be 30 percent of qualifying uninsured cost.

47 If the hospital's qualifying uninsured cost is equal to or greater than 3.5 percent of the total  
 48 hospital cost but less than 6.5 percent of total hospital cost, the payment shall be 50 percent

6 areas of the state shall be calculated as follows:

7 If the hospital's qualifying uninsured cost is less than 3.5 percent of total hospital cost, no

10 hospital cost but less than 6.5 percent of total hospital cost, the payment shall be 50 percent

14 hospital cost but less than or equal to 8 percent of total hospital cost, the payment shall be  
15 80 percent of an amount equal to the difference between the total qualifying uninsured cost  
16 as a percent of total hospital cost and 3.5 percent of total hospital cost.

17 If the hospital's qualifying uninsured cost is greater than 8 percent of total hospital cost, the  
18 payment shall be 90 percent of qualifying uninsured cost for the portion in excess of 8  
19 percent of total hospital cost and 80 percent of an amount equal to 4.5 percent of total  
20 hospital cost.

**HIGHER EDUCATION**

30 The following sums are hereby appropriated for the payment of operating expenses  
 31 associated with carrying out the functions of postsecondary education.

32 In accordance with Article VIII, Section 12 of the Constitution, and in acknowledgment of  
 33 the responsibilities which are vested in the management boards of postsecondary education,  
 34 all appropriations for postsecondary education institutions which are part of a university and  
 35 college system are made to their respective management boards and shall be administered  
 36 by the same management boards and used solely as provided by law.

37 Out of the funds appropriated herein for postsecondary education to the Louisiana State  
 38 University Board of Supervisors, Southern University Board of Supervisors, University of  
 39 Louisiana Board of Supervisors and the Louisiana Community and Technical Colleges  
 40 Board of Supervisors, the amounts shall be allocated to each postsecondary education  
 41 institution within the respective system as provided herein. Allocations of Total Financing  
 42 to institutions within each system may be adjusted as authorized for program transfers in  
 43 accordance with R.S. 39:73 as long as the total system appropriation of Means of Finance  
 44 and the institution allocations of State General Fund remain unchanged in order to  
 45 effectively utilize the appropriation authority provided herein for Fees and Self-generated  
 46 Revenues, Interagency Transfers and Federal Funds for each system.

1 Each management board has the authority to manage and supervise the postsecondary  
2 institutions under its jurisdiction. Responsibilities include the following: to employ and/or  
3 approve the employment and establish and/or approve the salary of board and university  
4 personnel; to actively seek and accept donations, bequests, or other forms of financial  
5 assistance; to set tuition and fees; to award certificates, confer degrees, and issue diplomas;  
6 to buy, lease, and/or sell property and equipment; to enter into contractual arrangements on  
7 behalf of the institutions; to adopt academic calendars; to sue and be sued; to establish and  
8 enforce operational policies for the board and institutions; and to perform other such  
9 functions as are necessary or incidental to the supervision and management of their  
10 respective system.

11 MASTER/Strategic Plan for Postsecondary Education: In accordance with Article VIII,  
12 Section 5 (D)(4) of the Constitution and Act 1465 of 1997, the most recently revised Master  
13 Plan for Postsecondary Education identifies three primary goals: (1) increase opportunities  
14 for student access and success, (2) ensure quality and accountability, and (3) enhance  
15 services to community and state. Through the specification of the role, scope, and mission  
16 of each postsecondary institution and the adoption of a selective admissions framework,  
17 objective targets have been identified. Subsequent strategic and operational plans will reflect  
18 regional and institutional strategies for attainment of these statewide goals.

19 Formula: The Board of Regents is constitutionally required to develop a formula for the  
20 equitable distribution of funds to the institutions of postsecondary education. The board has  
21 adopted a mission-driven formula for two-year and four-year institutions, with separate  
22 funding formulas/plans for the Louisiana Technical College, medicine, veterinary medicine,  
23 law, agricultural, research, and public service programs that consists of an operational  
24 funding plan that includes three broad components: Core Funding; Quality/Campus  
25 Improvement and State Priorities Funding, including Workforce and Economic  
26 Development; and Performance Incentive Funding.

27 In the development of the core funding component of the formula funding strategy, the  
28 following goals were identified: addressing equity concerns; recognizing differences in  
29 institutional missions; encouraging some campuses to grow and others to raise admission  
30 standards; and recognizing special programs. To address these goals, the formula core  
31 funding component includes as ingredients: mission related funding targets, a high cost  
32 academic program factor, an enrollment factor, and allowance for special programs.

33 The quality component of the formula allows for: targeting resources to strategic programs,  
34 connecting funding policies with values and strategies identified in the Master Plan for  
35 Postsecondary Education, allocating resources to support the state's economic development  
36 goals, encouraging private investment, encouraging efficiencies and good management  
37 practices, and providing resources to support a quality learning environment.

38 The performance component of the formula is designed to promote performance evaluation  
39 and functional accountability. The Board of Regents will continue to develop appropriate  
40 evaluation mechanisms in the following areas: student charges/costs, student advancement,  
41 program viability, faculty activity, administration, and mission specific goals unique to each  
42 institution.

43 All funding appropriated from State General Fund (Direct) or Statutory Dedications to the  
44 Board of Regents, Louisiana State University Board of Supervisors, Southern University  
45 Board of Supervisors, University of Louisiana Board of Supervisors and the Louisiana  
46 Community and Technical Colleges Board of Supervisors for use of public postsecondary  
47 education formula institutions shall be included in the determination of the formula  
48 implementation rate. This also includes funding appropriated to the Board of Regents or one  
49 of the four aforementioned Board of Supervisors that is retained by a Board but subsequently  
50 transferred to a formula institution via interagency transfers, through restricted funds and/or  
51 contracts. However, upon approval of the Board of Regents and the Division of  
52 Administration, specific projects shall be excluded from inclusion in the formula  
53 implementation rates.

1 The other sources of revenues used to fund the operations of institutions are fees and self-  
 2 generated revenues, primarily consisting of tuition and mandatory fees, interagency transfers  
 3 from other state agencies, statutory dedications and unrestricted federal funds.
