

Prior law required the La. Commission on Law Enforcement and the Administration of Criminal Justice to present annual printed reports containing criminal statistics of the preceding year to the governor and members of the legislature. Further required the commission to print a sufficient number of reports for all public officials dealing with crimes or criminals and for general distribution.

New law requires the commission to present such reports containing criminal statistics for the most recently available calendar year. Further requires the commission to print copies for distribution to the governor, certain legislative committee chairmen, and others who request a report, and authorizes the dissemination of the report on the commission's website to other public officials and for general distribution.

Effective August 1, 2013.

(Amends R.S. 15:1204.2(B)(8)(a) and (c))
