HB No. 204

**Abstract:** Requires a signed donor consent form as evidence of executing an anatomical gift through the office of motor vehicles.

Present law, in pertinent part, specifies that a donor may make an anatomical gift by authorizing a statement or symbol indicating that he has made an anatomical gift to be imprinted on his driver's license or identification card.

Proposed law modifies present law by specifying that a donor must execute a donor consent form to authorize a statement or symbol indicating that he has made an anatomical gift to be imprinted on his driver's license or identification card.

Present law provides that a procurement organization must be allowed reasonable access to information in the records of the office of motor vehicles to ascertain a person's donor status.

Proposed law retains present law but specifies that a procurement organization must have reasonable access to the signed donor consent form.

(Amends R.S. 17:2354(A)(1) and 2357(B))
