HB No. 434

**Abstract:** Requires the division of administration to establish a separate schedule within the capital outlay bill that includes all line item appropriations for nongovernmental entities and requires the certified date that the project's application was received be included in the project's title.

Present law requires the division of administration (DOA) to prepare a five year capital outlay budget that includes a list of projects requested to be undertaken within the time period, projects recommended by the DOA to be undertaken within the time period, the projected expenditures for each project, and the reasons for rejection of any requested project.

Proposed law retains present law but adds a requirement that the DOA establish a separate schedule within the capital outlay bill for all line item appropriations to nongovernmental entities which are neither a budget unit nor a political subdivision of the state. Further provides that the term "nongovernmental entities" shall include all not-for-profit and for-profit entities receiving line item appropriations.

Present law requires all entities seeking funding for a project in a capital outlay act to submit applications no later than the first day of November each year. Further requires the DOA to certify the date and time the request was received.

Proposed law retains present law but further requires that the date certified as the date the request was received be included within the title of a nongovernmental entity project that receives an appropriation in a capital outlay act.

(Amends R.S. 39:101(E); Adds R.S. 39:104(D))
