HB No. 769

Abstract: Provides relative to the purposes for which monies from the La. Quality Education Support Fund may be used by the State Board of Elementary and Secondary Education.

Present law provides for the creation of the Louisiana Quality Education Support Fund (the Support Fund) in the state treasury. Further provides that the amounts in the Support Fund shall be available for appropriation to pay expenses incurred in the investment and management of the Permanent Trust Fund and for educational purposes only as provided in present law.

Present law provides that the State Board of Elementary and Secondary Education (BESE) and the Board of Regents shall annually submit to the legislature and the governor a proposed program and budget for the expenditure of the monies in the Support Fund. Further provides that, except for appropriations to pay expenses incurred in the investment and management of the Permanent Trust Fund, the legislature shall appropriate from the Support Fund only for the educational purposes provided in present law and shall appropriate 50% of the available funds for higher educational purposes and 50% for elementary and secondary educational purposes.

Present law provides that the treasurer shall disburse not more than 50% of the monies in the Support Fund as that money is appropriated by the legislature and allocated by BESE for any or all of the following elementary and secondary educational purposes:

- (1) To provide compensation to city or parish school board professional instructional employees.
- (2) To insure an adequate supply of superior textbooks, library books, equipment, and other instructional materials.
- (3) To fund exemplary programs in elementary and secondary schools designed to improve elementary or secondary student academic achievement or vocational-technical skill.
- (4) To fund school carefully defined research efforts, including pilot programs, designed to improve elementary and secondary student academic achievement.
- (5) To fund school remediation programs and preschool programs.
- (6) To fund the teaching of foreign languages in elementary and secondary schools.

- (7) To fund an adequate supply of teachers by providing scholarships or stipends to prospective teachers in academic or vocational-technical areas where there is a critical teacher shortage.

Proposed law removes all such purposes for use of such funds except for adequate supply of superior textbooks, library books, equipment, and other instructional materials and funding preschool programs.

Proposed law adds as a purpose ensuring the supply of technology services.
