DIGEST

Gallot (SB 438)

Present law authorizes any public postsecondary education institution, including professional schools, to enter into an initial performance agreement with the Board of Regents in order to be granted limited operational autonomy and flexibility in exchange for committing to meet established targets for performance objectives.

Present law provides that, regarding the institutional and accountability objective, upon entering the initial performance agreement, the institution shall adhere to a schedule established by the institution's management board to increase nonresident tuition amounts that are not less than the average tuition amount charged to Louisiana residents attending peer institutions in other Southern Regional Education Board states and monitor the impact of such increases on the institution.

Present law further provides that for each public historically black college or university, the nonresident tuition amounts shall not be less than the average tuition amount charged to La. residents attending public historically black colleges and universities in other Southern Regional Education Board states.

Proposed law retains present law and requires each postsecondary education management board to establish criteria for waiving any nonresident tuition or mandatory fee increase in cases of financial hardship. Further requires information relative to such waivers, and the criteria and procedures for obtaining a waiver, be made available to all prospective students in a timely manner to ensure that each student is informed of the availability of a waiver prior to the student making a final decision concerning attendance at any public institution of postsecondary education.

Effective August 1, 2014.
