EXPENDITURE EXPLANATION

State agencies that process a significant number of administrative rules on a monthly basis may require additional resources to administer the requirements of the proposed bill. This bill requires state agencies to publish information concerning rule making and fees on its website.

For example, the Department of Health & Hospitals (DHH) processes approximately 75 to 150 administrative rulemaking documents per month (900 to 1,800 documents annually), which would be required to be posted to the agency's website on monthly basis. DHH anticipates a need for 2 additional program monitor positions at an anticipated annual cost of approximately \$190,000 for salaries and related benefits.

Based upon the additional anticipated man hours needed to post these documents online, the Legislative Fiscal Office anticipates the need for additional overtime hours for existing staff and/or the hiring of additional other compensation staff (student workers or WAE positions), which will result in less costly personal services costs. Thus, the Legislative Fiscal Office does not believe 2 permanent TO positions will be necessary in order to post 75 to 150 documents to DHH's website monthly.

NOTE: Other state agencies that have a significant number of administrative rules that responded to the LFO (Department of Children & Family Services, Wildlife & Fisheries) do not anticipate any fiscal costs in implementing the proposed bill. However, DHH typically processes twice as many administrative rules on a monthly basis than these high volume state agencies.
