Requires the state Dept. of Education to develop an accountability system for nonpublic schools participating in the voucher program and requires compliance with the system by such schools

The proposed legislation requires the Department of Education (DOE) to develop and implement an accountability system for non-public schools that participate in the Student Scholarship for Educational Excellence Program (SSEEP) which is comparable to and contains the same components, requirements and criteria used for the public school and district accountability system, including high stakes testing, letter grades and publishing accountability reports.

## **EXPENDITURE EXPLANATION**

There is no anticipated direct material effect on governmental expenditures as a result of this measure. The DOE has developed an accountability system for public schools and is already required to develop an accountability system for voucher schools. The proposed legislation would simply require DOE to apply certain criteria used for public schools to the voucher schools.

## **REVENUE EXPLANATION**

There is no anticipated direct material effect on governmental revenues as a result of this measure.
