EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure.

REVENUE EXPLANATION

The proposed bill is anticipated to result in a projected revenue increase of approximately \$60,000 in FY 16 increasing in subsequent fiscal years up to approximately \$65,000 in FY 20. This legislation impacts money transmitters by increasing the renewal fee by \$300, increasing the maximum fee limit by \$3,000 and increasing the investigation fee (associated with application) by \$500. The revenue projection is based upon the number of current licensees (58), estimated number of licensees subject to the new higher maximum (13), the average number of new applications per year (5), and a renewal rate of license holders of 100%. See calculations below.

FY 16: $(58 \times \$300) + (13 \times \$3,000) + (5 \times \$500) = \$58,900$
FY 17: $(63 \times \$300) + (13 \times \$3,000) + (5 \times \$500) = \$60,400$
FY 18: $(68 \times \$300) + (13 \times \$3,000) + (5 \times \$500) = \$61,900$
FY 19: $(73 \times \$300) + (13 \times \$3,000) + (5 \times \$500) = \$63,400$
FY 20: $(78 \times \$300) + (13 \times \$3,000) + (5 \times \$500) = \$64,900$
