HB 805 Reengrossed

2015 Regular Session

Adams

Abstract: Changes the tax credit for ad valorem taxes paid on certain inventory and natural gas from refundable credits to credits in which 75% of the excess credit amount shall be refundable and 25% of the excess credit amount may be carried forward and applied against subsequent tax liability for up to five years.

Present law provides for an income or corporation franchise tax credit for ad valorem taxes paid to political subdivisions on inventory held by manufacturers, distributors, and retailers and on natural gas held or consumed in providing natural gas storage services or operating natural gas storage facilities. The amount of the credit shall be equal to 100% of the taxes paid to political subdivisions.

Present law provides that the taxpayer is entitled to a refund for any allowable credit which exceeds the aggregate tax liability of the taxpayer. Further requires the Dept. of Revenue to refund the excess tax credit amount to the taxpayer from current tax collections.

Proposed law changes the tax credit from a refundable credit to one in which 75% of excess credit amounts which exceed taxpayer liability shall be refundable and 25% of the excess credit amounts may be carried forward against subsequent income or corporation franchise tax liability for up to five years.

Applicable to all claims for these tax credits on any return filed on or after July 1, 2015, regardless of the taxable year to which the return relates.
