

1           WHEREAS, some states and counties provide for a plurality vote to elect officers in  
2 a primary election when there are two or more offices of the same character to be filled,  
3 which reduces the number of elections needed to fill such offices; and

4           WHEREAS, a study is needed to analyze the processes and procedures for elections  
5 in Louisiana where two or more offices of the same character are to be filled; and

6           WHEREAS, during federal election years, out-of-state third party groups have  
7 attempted to register voters in Louisiana through door to door and mail voter registration  
8 drives using voter registration applications that were previously completed and various  
9 incorrect mailing lists; it has been reported that some groups have used lists that included  
10 the names of voters who were already registered to vote, deceased individuals, children, and  
11 pets, thereby raising security concerns and causing confusion; and

12           WHEREAS, these third party groups do not always communicate with state and local  
13 election officials to obtain accurate information and reliable data, nor do they alert media  
14 outlets of their activities for outreach to the general public; and
