EXPENDITURE EXPLANATION

The Department of Revenue (LDR) will incur costs for computer system modification and testing, tax form redesign, and tax payer inquiries. These costs are typically small for individual tax law changes (likely to be several thousands of dollars) and are typically absorbed within existing resources until cumulative changes necessitate additional resources be provided.

REVENUE EXPLANATION

The bill includes several provisions defining inventory for purposes of the state credit. There have not been definitions of inventory in state law with regard to the tax credit available to reimburse taxpayers for local ad valorem taxes paid on inventory. These provisions attempt to align what inventory is for purposes of the state credit with what inventory is for purposes of ad valorem taxation. The two concepts are not expected to be materially different from each other.

Some additional compliance may be achieved with the authority added by this bill for the Secretary of Revenue to intervene in disputes over the proper classification and valuation of inventory for which a state tax credit will be claimed.
