Proposed law requires public license tag agents to submit images of documents required to be retained by the department in connection with transactions or activities in connection with present law in the official document image repository of the department. Specifies that the department must determine the manner in which public license tag agents will be required to submit these images.

Present law requires any dealer of motor vehicles who receives a previously owned vehicle with the intention of reselling such vehicle to remove the license plate from that vehicle and execute an affidavit attesting to that fact and attach said affidavit to the title and registration.

Proposed law retains present law and requires all public license tag agents to submit electronic notification to the department of the removal and destruction of license plates when such submission is undertaken on behalf of a dealer licensed pursuant to present law (Chapter 4-C or Chapter 6 of Title 32 of the Louisiana Revised Statutes of 1950). Specifies that the department must determine the manner in which the public license tag agent shall be required to electronically submit this information.

Proposed law provides that the contract between the department and a person who contracts to perform services of a public license tag agent shall be two years and may be automatically renewed by the department.

Present LAC (55:III.1569(C)) provides that a contract between the department and the public license tag agent shall have a term of one year. The department may provide for automatic renewals.

Proposed LAC (55:III.1569(C)) changes the term of the contract from one to two years.

Proposed law provides that a contract entered into between the department and a public license tag agent in 2016 but prior to the effective date of this Act shall be extended for one year without need for amendment of the contract.

Effective upon signature of governor or lapse of time for gubernatorial action.
