1. Provide that the cause of action to appeal a decision regarding eligibility for disability benefits belongs to the member or his beneficiary.
2. Make technical changes.

Digest of Bill as Finally Passed by Senate

Present law provides for a disability retirement for members of FRS. Provides for determination of the amount of the disability benefit. Provides that eligibility for a disability retirement is determined by a physician.

Present law, relative to all state and statewide retirement systems, provides that any disability claimed must have been incurred after commencement of service in the retirement system and that a disability claim for a preexisting condition shall not be honored.

Proposed law retains present law and, relative to FRS, provides that a member is not eligible for a disability benefit if the disability is *indirectly* a result of a preexisting condition, for example, if fire department employment has made such a condition worse. Prohibits the board of trustees from considering the fact that the member was found to be fit for fire department employment in determining whether a disability is the result of a preexisting condition. Proposed law further provides that an appeal of a decision that the member is ineligible because the disability preceded employment may be instituted by the member or his beneficiary by filing a petition in the district court within 30 days after receipt of written notice of the decision.

Effective upon signature of governor or lapse of time for gubernatorial action.
