CURRICULA OR INCREASE GF EX See Note Page 1 of 1  
 Provides relative to STEM education. (gov sig)

Proposed legislation creates the Louisiana Science, Technology, Engineering and Math Advisory Council to coordinate and oversee the creation, delivery, and promotion of STEM education programs and ensure alignment of education, economic development, industry and workforce needs. Provides for the 25 member Council to be chaired by the Commissioner of Higher Education. Provides that as funding allows the Council shall create a comprehensive statewide plan; coordinate all STEM related programs; engage business and industry, employers, professional, and community based organizations; connect STEM resources, initiatives and programs regionally and throughout the state; establish an information clearinghouse to identify best practices, review and acquire related instructional materials; provide support for professional development; establish a grant program. Creates the Science, Technology, Engineering and Mathematics Education Fund and provides for the use of any funds appropriated or donated to the fund. Requires the Board of Elementary and Secondary Education to establish a STEM diploma endorsement for high school students exhibiting achievement in STEM subjects.

**EXPENDITURE EXPLANATION**

There will be an increase in expenditures of the Board of Regents, and the Advisory Council, to implement STEM initiatives as outlined in proposed legislation to the extent funding is provided for such expenses. There will be increases for the Department of Education and local school districts to establish and maintain records for a STEM diploma endorsement.

The Advisory Council will incur expenses out of the STEM Education Fund to award grants for initiatives as defined by proposed legislation. Additional expenses will likely be incurred as a result of the coordination and promotion activities, professional development support for teachers, and national collaborations required, the extent of which will depend upon the type and degree of activities provided.

There will be costs for the the Department of Education and local school districts to establish a diploma endorsement to recognize high schools students exhibiting achievement in STEM discipline subjects and to annotate transcripts of students earning the endorsement. The LDE projects there will be workload adjustments to identify and track students but does not anticipate additional staffing needs at this time. Additional staffing needs of local school districts will depend upon the resources of the district and the number of students eligible for such endorsements.

State agency appointing authorities' costs will increase to the extent monthly travel reimbursements for Advisory Council members are made.

**REVENUE EXPLANATION**

While there is no ongoing, dedicated revenue source for the STEM Fund, to the extent the legislature appropriates funding for or there is a deposit of grants or donations received by the Council, there will be an increase in statutorily dedicated revenues to the Science, Technology, Engineering and Mathematics Education Fund.

Senate Dual Referral Rules  
 13.5.1 >= \$100,000 Annual Fiscal Cost {S&H}  
 13.5.2 >= \$500,000 Annual Tax or Fee Change {S&H}

House  
 6.8(F)(1) >= \$100,000 SGF Fiscal Cost {H & S}  
 6.8(G) >= \$500,000 Tax or Fee Increase or a Net Fee Decrease {S}
