Subject: Eligibility For Credit For Tax Paid To Other States	Analyst: Greg Albrecht

TAX/TAXATION OR +\$34,800,000 GF RV See Note Page 1 of 1
 Eliminates sunset provision on credit for taxes paid in other states. (gov sig) (Item #5)

Present law limits the amount of individual income tax credit available for taxes paid to other states, that provide a similar credit for their residents who paid tax to Louisiana, to the lesser of the actual amount of tax paid to the other state or the amount of Louisiana tax that would have been imposed had the income in question been earned in Louisiana. These provisions terminate, essentially, after tax year 2017, and return to earlier provisions that allow the credit to the full amount of tax paid to the other state.

Proposed law continues the current limitation provisions permanently.

Effective upon governor's signature.

EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure.

REVENUE EXPLANATION

Current law provisions affect returns filed for tax year 2017, affecting tax receipts through FY18. Continuation of those provisions permanently will affect tax receipts in FY19 and beyond, when the current provisions are to expire. To estimate the likely effect of continuing the current credit limiting provisions beyond their expected termination, resident individual income tax data for tax year 2014 (the last tax year without limitation) was compared to that of tax year 2015 and 2016 (the first and second tax years of limitation). Tax year 2015 returns claimed \$31.3 million less for this credit than did 2014 tax year returns (\$52.6 million vs \$83.9 million), and tax year 2016 returns claimed \$34.8 million less for this credit than did 2014 tax year returns (\$49.1 million vs \$83.9 million).
