The original instrument and the following digest, which constitutes no part of the legislative instrument, were prepared by Sharon F. Lyles.

DIGEST

SB 212 Original

2018 Regular Session

Gatti

<u>Present law</u> allows DOTD to lease specialized maintenance equipment which will not be needed on a permanent basis for the shortest period required under the circumstances, in accordance with the public bid law, when the secretary determines that it is necessary or economically feasible.

<u>Present law</u>, in all other cases, requires the DOTD to own the fixed and mobile equipment necessary to appropriately maintain and operate the facilities under its jurisdiction.

<u>Present law</u> does not require the DOTD to accept equipment offered at the lowest price when purchasing equipment when such practice would result in the ownership or use of so many different types or brands that economic operation and maintenance of the equipment would be impracticable.

<u>Proposed law</u> changes <u>present law</u> to authorize DOTD to purchase, rent, or lease fixed and mobile equipment necessary to appropriately maintain and operate its facilities.

Effective August 1, 2018.

(Amends R.S. 48:262(A))
