

SENATE CONCURRENT RESOLUTION NO. 37

BY SENATORS GATTI AND PEACOCK AND REPRESENTATIVE CARMODY

A CONCURRENT RESOLUTION

To commend Brammer Engineering upon the celebration of its fiftieth anniversary as a Louisiana oil and gas industry services company.

WHEREAS, in 1968 Bob Brammer opened the doors to his oil and gas service company in Shreveport, Louisiana; and

WHEREAS, from the first week of business when Bob Brammer was ill and his wife, Dot, sat at the phone to receive any calls, most of which came from Bob to inquire about business, Brammer Engineering has become a provider of high quality exploration and production services to the oil and gas industry; and

WHEREAS, from a staff of one engineer to over one hundred employees today, Brammer Engineering, Inc., incorporated in 1995, continues to be a leader in the Shreveport area in the provision of a wide range of support services for the oil and gas industry in Louisiana; and

WHEREAS, Brammer Engineering has served over eight hundred current and former clients and has worked diligently over these past fifty years to contribute to the success of not only Brammer, but of all of the company's customers; and

WHEREAS, Brammer and its subsidiaries offer drilling, completion, and production, as well as procurement and supply services to the industry it assists, having developed considerable expertise over the past fifty years, allowing the company to continue the excellence of the services provided to each customer from the moment the company opened its doors in 1968; and

WHEREAS, additionally, Brammer Engineering provides chain management, regulatory, land and legal, accounting, risk management, and information technology services to their client base, providing continuity over this spectrum of services; and

WHEREAS, in an industry vital to the economic fortunes of the state of Louisiana as a whole, Brammer Engineering has also provided facility and pipeline expertise, energy marketing skills, wellsite supervision and consulting support, as well as health, safety, and environmental services to the industry; and

WHEREAS, begun as a family-owned business on a shoestring, Brammer Engineering, Inc., a corporation whose annual revenue is reported to be over one hundred million dollars, is proud to celebrate its fiftieth anniversary by thanking its employees and former employees, its clients, current and past, and industry partners for their role in helping Brammer grow and effectively serve the oil and gas industry in Louisiana and beyond; and

WHEREAS, Brammer Engineering, Inc. has become a solid business in an industry known for frequent business failures and Brammer's success is the result of a strong business foundation combined with hard work, integrity, honesty, and a commitment to excellence, provided in the early years of the company and remaining a focus into a new century.

THEREFORE, BE IT RESOLVED that the Legislature of Louisiana does hereby commend Brammer Engineering, Inc., an oil and gas industry services company founded and operating in Shreveport, Louisiana, upon its fiftieth anniversary serving this important sector of Louisiana's economy.

BE IT FURTHER RESOLVED that a copy of this Resolution be transmitted to Keith Evans, chairman of the board, chief executive officer, and president of Brammer Engineering, Inc.
