HB 472 Original

2019 Regular Session

Glover

Abstract: Grants an additional 5% motion picture production tax credit for expenses incurred at a state-certified motion picture infrastructure project that is also eligible for the out-of-zone filming tax credit.

Present law authorizes the following tax credits for state-certified productions:

- (1) A 25% tax credit if the base investment is in excess of \$300,000 or if the production is a La. screenplay production.
- (2) An additional 5% base investment credit for projects filmed outside the New Orleans Metro Zone, but not including St. John the Baptist Parish.
- (3) An additional 10% base investment credit for certain expenditures equal to or greater than \$50,000 but less than \$5 million for projects meeting certain La. screenplay criteria.
- (4) A 15% credit for La. resident payroll expenditures.
- (5) A 5% credit for certain La.-based visual effects expenditures meeting certain requirements.

Proposed law authorizes an additional 5% base investment credit for production expenditures incurred on a state-certified production when those expenditures were made at a facility that has been deemed a state-certified motion picture infrastructure project. Further provides that in order to be eligible for this additional 5% credit, the project must also be eligible for the 5% base investment credit for projects filmed outside of the New Orleans Metro Zone.

Present law limits the maximum amount of tax credit that a production can earn at 40% of the base investment.

Proposed law increases the maximum credit available from 40% to 45% of the base investment.

Present law specifies that beginning July 1, 2017, no more than \$150 million of credits can be issued per fiscal year and that no more than \$180 million of credits can be claimed on tax returns or transferred to the Dept. of Revenue per fiscal year.

Proposed law retains present law.

Effective July 1, 2019.
