Proposed Amd.:

Sub. Bill For.:

<b>Date:</b> May 28, 2019	12:24 PM	<b>Author:</b> CARTER, G.
<b>Dept./Agy.:</b> Economic Development		<b>Analyst:</b> Greg Albrecht
<b>Subject:</b> Tax Credit For Costs of Certain Manufacturing Projects		

TAX CREDITS RE1 -\$1,000,000 GF RV See Note Page 1 of 1  
Establishes a tax credit pilot program for certain Louisiana-based manufacturing industries

Authorizes income tax credits for expenses associated with construction and equipping certain manufacturing projects in the state. Projects are to be located in opportunity zone census tracts, and have a maximum capital cost of \$5 million. Credits per project can be for up to 50% of eligible expenditures, but not greater than \$50,000 per project. Credits are nonrefundable but can be carried forward for five years. Credits can not be applied against tax liabilities before January 1, 2020. Total credits that can be granted are \$500,000 per year and \$1 million over the two-year life of the program, and may be structured over time. A maximum of \$250,000 of total claims are allowed to be made each year, on a first-come, first-served basis, with any year's excess claim amounts being first in line for the following year. Any year's unused claim amount are added to the next year's maximum allowance. No credits shall be issued on or after December 31, 2022.

Effective upon governor's signature.

**EXPENDITURE EXPLANATION**

The Dept. of Economic Development anticipates an existing incentive manager handling the program in its pilot period, with additional resources necessary depending on the number and complexity of participation, and the extension of the program beyond this initial five-year period.

The Dept. of Revenue will likely incur tax system modification costs, typically estimated in the range of several thousands of dollars of staff time.

**REVENUE EXPLANATION**

The bill establishes a two-year program for subsidizing a portion of the costs associated with qualifying manufacturing projects. Total exposure of the state fisc is limited to \$1 million over the life of the program (a two-year credit granting window and five year credit carry-forward windows for each year of credit grants), but the magnitude and timing of annual cost realizations are unknown, and will depend on implementation of the program; applications, certifications, credit awards, credit claims and carry-forwards. It is assumed that providing that "tax credits shall not be applied against an applicant's tax liability before January 1, 2020" means that credits can first be claimed against tax year 2020 income tax liabilities, making the first fiscal year of credit exposure to income tax be FY21.

Annual revenue losses would likely ramp-up over time; possibly being less than the \$250,000 annual threshold initially, but greater than that later as unused annual credit capacity is rolled forward, accumulated, and realized in later periods.

Senate  
Dual Referral Rules  
 13.5.1 >= \$100,000 Annual Fiscal Cost {S & H}  
 13.5.2 >= \$500,000 Annual Tax or Fee Change {S & H}

House  
 6.8(F)(1) >= \$100,000 SGF Fiscal Cost {H & S}  
 6.8(G) >= \$500,000 Tax or Fee Increase or a Net Fee Decrease {S}
