

RÉSUMÉ DIGEST

HR 208

2019 Regular Session

Emerson

Existing House Rule requires printed copies of certain proposed floor amendments to be distributed to certain members before a vote can be taken on the amendments. Existing House Rule does not apply to amendments proposed by the Legislative Bureau.

Prior House Rule required a copy of each proposed floor amendment which was no more than one page to be placed on the desk of a member of the House upon request. Required a copy of each proposed floor amendment which was more than one page to be placed on the desk of a member of the House unless the member notified the Clerk otherwise.

New House Rule instead provides one requirement, regardless of the length of the proposed floor amendment. Only requires a copy of a proposed floor amendment to be placed on the desk of a member of the House if the member has notified the Clerk that the member wants to receive printed copies of all proposed floor amendments.

Effective January 13, 2020.

(Amends House Rule 11.4(B))
