2021 Regular Session

SENATE CONCURRENT RESOLUTION NO. 2

BY SENATOR FIELDS

Prefiled pursuant to Article III, Section 2(A)(4)(b)(i) of the Constitution of Louisiana.

BESE. Provides for legislative approval of the MFP formula for the 2021-2022 school year. (7/1/21)

A CONCURRENT RESOLUTION
To provide for legislative approval of the formula developed by the State Board of
Elementary and Secondary Education pursuant to Article VIII, Section 13(B) of the
Constitution of Louisiana to determine the cost of a minimum foundation program
of education in all public elementary and secondary schools as well as to equitably
allocate the funds to parish and city school systems, and adopted by the board on
March 10, 2021.
WHEREAS, the minimum foundation program formula for the 2021-2022 Fiscal
Year as adopted by the State Board of Elementary and Secondary Education on March 10,
Year as adopted by the State Board of Elementary and Secondary Education on March 10, 2021, reads as follows:
2021, reads as follows:
2021, reads as follows: PROPOSED
2021, reads as follows: PROPOSED FY 2020-2021 MINIMUM FOUNDATION PROGRAM FORMULA
2021, reads as follows: PROPOSED FY 2020-2021 MINIMUM FOUNDATION PROGRAM FORMULA The FY 2021-2022 Minimum Foundation Program (MFP) formula was adopted by
2021, reads as follows: PROPOSED FY 2020-2021 MINIMUM FOUNDATION PROGRAM FORMULA The FY 2021-2022 Minimum Foundation Program (MFP) formula was adopted by the State Board of Elementary and Secondary Education on March 10, 2021. The
2021, reads as follows: PROPOSED FY 2020-2021 MINIMUM FOUNDATION PROGRAM FORMULA The FY 2021-2022 Minimum Foundation Program (MFP) formula was adopted by the State Board of Elementary and Secondary Education on March 10, 2021. The formula determines allocations for city, parish, or other public school systems or

Arts (LSMSA), New Orleans Center for Creative Arts (NOCCA), Thrive Academy,
 New Type 2 Charter schools, Legacy Type 2 Charter schools, Type 3B Charter
 schools, Office of Juvenile Justice (OJJ) schools, and Louisiana State University,
 Southern University, and University of Louisiana at Lafayette Lab schools. The
 formula is divided into four calculations as follows:

Level 1 determines the minimum cost of education based on the education 6 7 needs of each student. The cost includes funding for students enrolled in city 8 and parish school systems, Recovery School District direct operated and 9 Type 5 Charter schools, New Type 2 Charter schools, and Type 3B Charter 10 schools. The cost is then shared equitably between the State and the city and 11 parish school systems based on the ability of the systems to support 12 education in their communities through local sales and property tax revenues. 13 Level 2 provides an incentive for city and parish school systems to support education in their communities above the minimum level of financial support 14 15 required.

16 Level 3 provides specific legislative education funding to city, parish, or
17 other local public school systems or schools for Continuation of Certificated
18 and Support Worker pay raises, the Historical Formula Allocation, and
19 Mandated Operating Costs.

20 Level 4 provides additional funding including:

Supplementary funding to meet specific needs at city, parish,
 or other local school systems and schools including
 International Associate Teacher Salary and Stipends
 Allocation, Career Development Allocation, High Cost
 Services Allocation, Supplemental Course Allocation,
 Certificated and Support Staff Pay Raise Allocations, and
 Certified Mentor Teacher Stipend Allocations.

Allocations for State-approved public school systems or
 schools including Legacy Type 2 Charter schools, Louisiana
 State University, Southern University, and University of

1		Louisiana at Lafayette Lab schools, New Orleans Center for
2		Creative Arts (NOCCA), Louisiana School for Math, Science,
-		and the Arts (LSMSA), Thrive Academy, and Office of
4		Juvenile Justice (OJJ) schools.
5		
		• Mid-Year Allocation Adjustments to account for mid-year
6		increases and decreases in students in all city, parish, or other
7		local public school systems or schools.
8		State MFP funds shall only be expended for educational purposes.
9		Expenditures for educational purposes are those expenditures related to the
10		operational and instructional activities of city, parish, or other public school
11		systems or schools to include: instructional programs, pupil support
12		programs, instructional staff programs, school administration, general
13		administration, business services, operations and maintenance of plant
14		services, student transportation services, food services operations, enterprise
15		operations, community services operations, facility acquisition, and
16		construction services and debt services as defined by Louisiana Accounting
17		and Uniform Governmental Handbook, Bulletin 1929.
18	I.	FORMULA CALCULATIONS
19	А.	Level 1: Calculate State and Local Cost Allocation
20		1. Determine Educational Costs
21		Eligible students from the following school systems and schools will be counted in
22		both the Base and Weighted Student Memberships:
23		a. City and parish school systems.
24		b. State-Approved Public Schools - The student counts of New Type 2
25		Charter Schools shall be included in the membership and weighted
26		student counts of the city or parish school system in which the
27		student resides.
28		c. Recovery School District - The student membership and weighted
		student counts of schools transferred to the Recovery School District,

both direct operated and Type 5 Charter schools, shall continue to be

1 included in the membership and weighted student counts of the city 2 or parish school system from which jurisdiction of the school was 3 transferred. STEP ONE: Determine the Number of Eligible Students for the Base Count 4 The formula first counts each of the students enrolled on February 1 to determine the 5 cost of education services. The formula utilizes the February 1 Student Membership 6 7 Count to allocate funding beginning in July. The students eligible to be counted are 8 identified in the Student Membership Definition adopted by the State Board of 9 Elementary and Secondary Education. These students are counted as one (1.0) in the 10 formula. 11 STEP TWO: Determine the Number of Students Eligible for the Weighted 12 Student Count 13 The formula recognizes that providing educational services to meet the needs of particular students is more costly than regular educational services. Each special 14 characteristic or need is given a numerical value referred to as a weight. The special 15 16 needs of each student are taken into consideration by multiplying the student count for each eligible child (1.0) by each of the weights. This calculation provides 17 additional students that are then added to the February 1 Student Membership Count 18 19 to equal the Total Weighted Student Membership Count. The students and units eligible to be counted are identified in the Student Membership Definition adopted 20 by the State Board of Elementary and Secondary Education. The following are the 21 22 additional costs recognized by the formula: Low Income and English Language Learner Weight - The formula recognizes 23 24 that students living in poverty or students with a native language other than English are more likely to require additional educational services to be successful. To 25 recognize that these services require additional costs, students that qualify for free 26 27 or reduced price meals under the United States Department of Agriculture (USDA) School Food Service Program guidelines, or an alternative count as defined in the 28 Student Membership Definition, and students identified as an English Language 29 30 Learner are provided a weight of 22%.

1 Career and Technical Education Weight - The formula recognizes that the cost of 2 providing materials and equipment, and teacher credentialing and training, for Career 3 and Technical Education courses is above and beyond the cost of traditional 4 academic education. Each secondary career and technical education course in which 5 a student is enrolled in both the fall and spring semesters is provided a weight of 6%. 6 Special Education Weight - The formula addresses the extra cost associated with 7 the delivery of services required in order to meet the needs of students with 8 disabilities. Students with disabilities that have an Individualized Education 9 Program (IEP) plan developed according to State Board of Elementary and 10 Secondary Education regulations are provided a weight of 150%.

11 Gifted and Talented Weight - The formula recognizes the cost of providing 12 educational services to Gifted and Talented students that have an Individualized 13 Education Program (IEP) Plan developed according to State Board of Elementary and Secondary Education regulations and are provided a 60% weight. 14

Economy of Scale Weight - This weight is provided for city or parish school 15 16 systems to recognize a base amount of funding for fixed overhead costs that should be provided when student populations equal 7,500 students or less. The Economy 17 of Scale Weight is calculated as a curvilinear weight of 20% at a student membership 18 19 count of zero down to 0% at a student membership count equal to or greater than 7,500. To calculate this weight, the February 1 Student Membership Count for each 20 city and parish school system is subtracted from 7,500 and divided by 37,500. The 21 result of this calculation is then multiplied by each system's February 1 Student 22 Membership Count to determine the weighted students. 23

24 **STEP THREE: Determine Total Weighted Student Membership Count**

This cap will be applied on a year-to-year basis comparing the current year sales tax base to the prior year uncapped sales tax base. Computed Sales Tax Rate - The Computed Sales Tax Rate is calculated annually
 17 18 19 20 21 22 23 24 25 26 27 	 Mid-Year Rate Increases - If a local school system's sales tax goes into effect during the fiscal year, the tax rate is prorated to an annual rate applicable for the total revenue generated. Sales Tax Increase Cap - If a system's Computed Sales Tax Base increased equal to or greater than 15% over the Computed Sales Tax Base calculated in the prior year formula, then the growth in the Computed Sales Tax Base will be capped at 15% over the amount used in the prior year formula. This cap will be applied on a year-to-year basis comparing the current year sales tax base to the prior year uncapped sales tax base. Computed Sales Tax Rate - The Computed Sales Tax Rate is calculated annually at the rate necessary to maintain a state and local allocation ratio of 65%/35%.

1		Equals
2		State Revenue in lieu of taxes
3		Plus
4		Federal Revenue in lieu of taxes
5		Plus
6		50% of Earnings on Property
7		STEP FOUR: Determine Local Cost Allocation
8		Formula:
9		Local Cost Allocation
10		Equals
11		Property Tax Contribution
12		Plus
13		Sales Tax Contribution
14		Plus
15		Other Revenues Contribution
16		STEP FIVE: Determine State Cost Allocation
17		Formula:
18		State Cost Allocation
19		Equals
20		Total State and Local Cost
21		Minus
22		Local Cost Allocation
23		Minimum State Cost Allocation - In no event shall the State Cost Allocation be less
24		than 25% of Total Level 1 Cost for any city or parish school system.
25	В.	Level 2: Incentive for Local Effort
26		Level 2 provides incentives for city and parish school systems that contribute a
27		greater proportion of local revenues towards the cost of education in their
28		communities by increasing local property and sales tax revenues. This effort is
29		measured using the latest available data for the following sources of revenue as
30		reported in the Annual Financial Report (AFR) as required in R.S. 17:92.

1	1. Total Sales Taxes
2	2. Total Property Taxes
3	3. State and Federal Revenue in Lieu of Taxes
4	4. 50% Earnings on Property Revenue
5	STEP ONE: Determine Eligible Local Revenue
6	Formula:
7	Eligible Local Revenue
8	Equals
9 10	Total Sales Tax Revenue
11	Plus
12	Total Property Tax Revenue
13	Plus
14	State and Federal Revenue in Lieu of Taxes
15	Plus
16	50% of Earnings on Property Revenue
17	STEP TWO: Determine Local Revenue Eligible for Incentive
18 19	Formula:
20	Local Revenue Eligible for Incentive
21	Equals
22	Eligible Local Revenue
23	Minus
24	Local Cost Allocation
25	STEP THREE: Determine the Limit on Revenue Eligible for Incentive
26	<u>Formula:</u>
27 28	Limit on Revenue Eligible for Incentive
29	Equals
30	Total State and Local Cost Allocation Multiplied by 34%
31	STEP FOUR: Determine Local Support of Level 2 Incentive
32	Formula:
33	Local Support of Level 2 Incentive

1		Equals
2		Lesser of Local Revenue Eligible for Incentive or Limit on Local
3		Revenue Eligible for Incentive
4		Multiplied by
5		Local Cost Allocation Percentage (Level 1)
6		Multiplied by
7		Level 2 Incentive Factor
8		Level 2 Incentive Factor - The Level 2 Incentive Factor determines the amount of
9		local support required in Level 2. In FY 2014-2015, the Level 2 Incentive Factor is
10		established at 1.72.
11		STEP FIVE: Determine State Cost of Level 2 Incentive
12		<u>Formula:</u>
13		State Support of Level 2 Incentive
14		Equals
15		Lesser of Local Revenue Eligible for Incentive or Limit on Local
16		Revenue Eligible for Incentive
17		Minus
18		Local Support of Level 2 Incentive
19	C.	Level 3: Legislative Allocations
20		Level 3 provides funding for three programs that address funding for school systems
21		and schools regarding teacher and support worker pay raises, historical formula
22		allocations, and mandated operating costs, and are in addition to allocations provided
23		in Level 1 and 2. These allocations are as follows:
24		Formula:
25		Total Level 3 Legislative Allocations
26		Equals
27		Continuation Pay Raises
28		Plus
29		Historical Formula Allocation
30		Plus

1	Mandated Costs in Health Insurance, Retirement, and Fuel
2	STEP ONE: Calculate Continuation Funding for Pay Raises
3	1. Certificated Personnel Pay Raises were implemented in four recent years to
4	assist in increasing Teacher and School Leader pay to the Southern Regional
5	Average. These funds continue to be provided directly to systems and schools to
6	support these increased salaries.
7	a. Certificated Personnel Pay Raises provided in 2001-2002, 2006-2007,
8	2007-2008, and 2008-2009 will continue for each school system and school
9	based on the calculated per pupil amount times the February 1 Student
10	Membership Count.
11	2. Non-certificated Support Worker Pay Raises were implemented in three
12	recent years to assist with increasing these salaries.
13	a. Non-certificated Support Worker Pay Raises provided in 2002-2003,
14	2006-2007, and 2007-2008 will continue for each school system and school
15	based on the calculated per pupil amount times the February 1 Student
16	Membership Count.
17	3. This provision applies to city and parish school systems, Recovery School
18	District, New Orleans Center for Creative Arts (NOCCA), Louisiana School for
19	Math, Science, and the Arts (LSMSA), Thrive Academy, Legacy Type 2 Charter
20	Schools, New Type 2 Charter Schools, Type 3B Charter Schools, Louisiana State
21	University, Southern University, and University of Louisiana at Lafayette Lab
22	schools, and Office of Juvenile Justice (OJJ).
23	STEP TWO: Calculate Historical Formula Allocations
24	Allocations for Insurance and Pay Raises - The following school systems
25	are being provided continuing funding for the 1994 insurance supplement
26	and employee pay raises provided by the Legislature beginning in 1997
27	through 1999: East Baton Rouge, Iberville, Jefferson, Lafayette,
28	Plaquemines, Pointe Coupee, St. Charles, St. James, and West Feliciana.
29	Redistribution Allocation - After setting aside the insurance and pay raise
30	funding, the balance of the "Hold Harmless" funding was removed from

1		these school districts over ten years from 2006-2007 to 2016-2017:
2		Concordia, East Baton Rouge, Evangeline, Iberville, Jefferson, Plaquemines,
3		St. Charles, St. James, and West Feliciana.
4		The amount of funding removed from the districts listed above is reserved
5		and redistributed to the remaining city, parish or other local public school
6		systems or schools. The total amount is divided by the total number of
7		students within these same city, parish or other local public school systems
8		or schools to calculate a per pupil amount. The allocation is determined
9		using the per pupil amount multiplied by the current year student count.
10		STEP THREE: Determine Allocation for Increasing Mandated Costs in Health
11		Insurance, Retirement, and Fuel
12		City, parish or other local public school systems or schools shall receive a
13		minimum of \$100.00 for each student in the prior year February 1
14		membership to offset these increasing operational costs.
15		The following formula is applied to determine the Level 1, 2, and 3 State Cost
16		Allocation Per Pupil:
17		Formula:
18		Level 1, 2, and 3 State Cost Allocation Per Pupil
19		Equals
20		Level 1 State Cost Allocation Per Pupil
21		Plus
22		Level 2 State Cost Allocation Per Pupil
23		Plus
24		Level 3 State Cost Allocation Per Pupil
25	D.	Level 4: Supplementary Allocations
26		1. Specific Needs Allocations
27		Specific Needs Allocations provide funding for four allocations for specific purposes
28		and is in addition to system level allocations from Levels 1, 2, and 3. These
29		allocations are as follows:
30		Formula:

1	Total Level 4 Supplementary Allocations
2	Equals
3	International Language Associate Program Salary and Stipend
4	Allocation
5	Plus
6	Career Development Allocation
7	Plus
8	High Cost Services Assistance Allocation
9	Plus
10	Supplemental Course Allocation
11	STEP ONE: Calculate International Language Associate Salary and Stipend
12	Allocation
13	Salary Allocation - Any city, parish, or other public school system or school
14	employing an International Language Associate or a graduate of the Escadrille
15	Louisiane program shall receive a supplemental allocation from State Board of
16	Elementary and Secondary Education of \$21,000 per teacher. The state shall
17	maintain support of the International Language Associate program at a maximum of
18	300 International Language Associates employed in any given year.
19	These teachers shall be paid by the employing city, parish, or other local
20	public school system or school at least the state average classroom teacher salary
21	(without PIP) by years of experience and degree beginning with year three. Of the
22	\$21,000 allocation, \$20,000 shall be allocated to the school where the teacher is
23	employed and the funds used to support the total cost of the teacher salary, and the
24	remaining amount shall be associated with costs of VISA sponsorship pursuant to
25	State Board of Elementary and Secondary Education regulations.
26	Stipend Allocation - First year teachers will receive an installation incentive
27	of an additional \$6,000; second and third year teachers will receive a retention
28	incentive of an additional \$4,000. These amounts must be provided to each
29	International Associate Teacher or Escadrille Louisiane graduate by each school
30	district or school in which they are employed.

3

4

5

6

STEP TWO: Career Development Allocation

The cost of providing materials and equipment and teacher credentialing and training to attain a statewide industry-based credential is above and beyond the cost typically required for high school courses. An allocation will be provided to support the development of these technical courses required for statewide credentials in city and parish school systems and other public schools.

The first step in the allocation is to calculate six percent (6%) of the MFP
State and Local Base Cost Per Pupil to determine the Career Development Per Pupil
Amount. The Career Development Per Pupil Amount will be provided for each
qualifying student course enrollment in grades 9 through 12.

If a city or parish school system receives less than \$25,000 from the Career Development Per Pupil Amount, then the city or parish school system will be provided an economies of scale minimum allocation of \$25,000. If other public school systems and schools containing grades 9 through 12 receive less than \$10,000 from the Per Pupil Amount, then the other public school systems and schools containing grades 9 through 12 will be provided an economies of scale minimum allocation of \$10,000.

18 Formula:

- 19
 Career Development Allocation Per Pupil

 20
 Equals

 21
 MFP State and Local Base Cost Per Pupil

 22
 Multiplied By
- 23Six Percent (6%)

24Formula:

26

28

25 Career Development Allocation

Equals

- 27 Career Development Allocation Per Pupil
 - Multiplied By
- 29 Qualifying Student Course Enrollments
- 30 in Grades 9 through 12

3

4

5

6

7

8

STEP THREE: Calculate High Cost Services Assistance

High cost services for students with disabilities generate a particular budget challenge for city, parish, and other public school systems and schools.

In an effort to assist with these expenses, an allocation will be provided to city, parish, and other public school systems and schools which submit documentation as required by the Louisiana Department of Education substantiating that the prior year cost of services for a specific student exceeds three times the most recent state average total expenditure per pupil amount.

9 Once costs associated with providing services for a student with a disability 10 or disabilities have been verified, the city or parish school system or other public 11 school will be eligible to receive an allocation to assist with these costs. The 12 allocation will be limited by the amount budgeted for the High Cost Services 13 Assistance Allocation. So as to be equitably distributed, the total allocation provided to city and parish school systems versus other public schools shall be proportional 14 to the share of total qualifying applications submitted by city and parish school 15 systems versus other public schools. 16

17 The first step in the allocation will be to calculate the impact of these costs 18 on the budget of the school system or school using the latest available state and local 19 revenue data. The High Cost Services requested for reimbursement will be reduced 20 by the MFP state and local amount allocated on behalf of each student from Levels 21 1, 2, and 3. The next step will rank the Percent (%) Impact from highest to lowest 22 percent, with two separate rank listings for school systems and other public schools.

Formula:

23

24

25

27

- Percent (%) Impact on Budget
 - Equals
- 26 **Cost of Services**
 - Divided By
- 28 Total State and Local Revenue

The two ranked listings will be divided into four tiers and allocations will be
provided based on a percentage from one hundred percent reimbursement in the

1	highest funded tier with smaller percentages reimbursed in the lower tiers based on
2	where the school system or school falls within the tiers on one of the two lists.
3	STEP FOUR: Calculate Supplemental Course Allocation
4	Pursuant to R.S. 17:4002.1 through 4002.6, the Supplemental Course
5	Allocation shall provide for the cost of secondary course choices specifically
6	approved by the State Board of Elementary and Secondary Education. For each city
7	and parish school system and other public school, the allocation shall equal the
8	number of students enrolled in grades 7 through 12 as of February 1 each year
9	multiplied by \$59 per pupil.
10	<u>Formula:</u>
11	Supplemental Course Allocation for School Systems or Other Public
12	Schools
13	Equals
14	Supplemental Course Allocation Per Pupil
15	Multiplied By
16	Number of Students in Grades 7 through 12
17	If the entire allocation is not committed by the city or parish public school
18	systems or other public school by a date set forth by the Louisiana Department of
19	Education, the original allocation will be reduced by the uncommitted amount. The
20	total uncommitted amount from each city or parish public school systems or other
21	public school will be reallocated to those city or parish public school systems or
22	other public schools that obligated one hundred percent of their original allocation
23	based on criteria set forth by the Louisiana Department of Education.
24	STEP FIVE: Calculate 2019-20 Certificated and Non-Certificated Pay Raises
25	1. Certificated Personnel Pay Raise
26	Each city, parish, or other public school district or school shall receive
27	\$1,000 plus 26.0% for the employer contribution to the appropriate
28	retirement system based on the staffing data submitted to the official
29	department personnel data reporting system as of October 1 to provide an
30	across the board \$1,000 pay raise and any associated retirement for K-12

1	classroom educators and other certificated K-12 personnel defined per
2	Louisiana Department of Education Bulletin 1929 to include:
3	Teachers (all function codes 1000-2200s, object code 112);
4	Therapists/Specialists/Counselors (function codes 1000-2200s, object
5	code 113); School Site-based Principals, Assistant Principals, and
6	Other School Administrators (function code 2400s, object code 111);
7	Central Office Certificated Administrators (function codes 1000-2200
8	& 2324, 2831, and 2832 (excluding 2130s), object code 111); School
9	Nurses (function code 2134, object code 118); and Sabbaticals
10	(function codes 1000-2200s, 2134, and 2400s, object code 140).
11	2. Non-Certificated Personnel Pay Raise
12	Each city, parish, or other public school district or school shall receive \$500
13	plus 29.4% for the employer contribution to the appropriate retirement
14	system based on the staffing data submitted to the official department
15	personnel data reporting system as of October 1 to provide an across the
16	board \$500 pay raise and associated retirement for non-certificated K-12
17	personnel defined per Louisiana Department of Education Bulletin 1929 to
18	include:
19	Aides (function codes 1000-4900s, object code 115); Support
20	Supervisors (function codes 2130s, 2300s (excluding 2311, 2321,
21	2324, 2831 and 2832) and 2500-4900s, object code 111);
22	Clerical/Secretarial (function codes 1000-4900s, object code 114);
23	Service Workers (function codes 1000-4900s, object code 116);
24	Skilled Craftsmen (function codes 1000-4900s, object code 117);
25	Degreed Professionals (function codes 1000-4900s, (excluding
26	2134s) object code 118); and Other Personnel (function codes
27	1000-4900s, object codes 100, 110 and 119).
28	STEP SIX: Calculate 2021-22 Certificated and Non-Certificated Pay Raises
29	1. Certificated Personnel Pay Raise
30	Each city, parish, or other public school district or school shall receive \$400

28

29

30

1 plus 25.2% for the employer contribution to the appropriate retirement 2 system based on the staffing data submitted to the official department 3 personnel data reporting system as of October 1 to provide an across the 4 board \$400 pay raise and any associated retirement for K-12 classroom educators and other certificated K-12 personnel defined per Louisiana 5 Department of Education Bulletin 1929 to include: 6 Teachers (all function codes 1000-2200s, object code 112); 7 8 Therapists/Specialists/Counselors (function codes 1000-2200s, object 9 code 113); School Site-based Principals, Assistant Principals, and 10 Other School Administrators (function code 2400s, object code 111); 11 Central Office Certificated Administrators (function codes 1000-2200 12 & 2324, 2831, and 2832 (excluding 2130s), object code 111); School 13 Nurses (function code 2134, object code 118); and Sabbaticals 14 (function codes 1000-2200s, 2134, and 2400s, object code 140). 2. **Non-Certificated Personnel Pay Raise** 15 16 Each city, parish, or other public school district or school shall receive \$200 plus 28.7% for the employer contribution to the appropriate retirement 17 18 system based on the staffing data submitted to the official department 19 personnel data reporting system as of October 1 to provide an across the board \$200 pay raise and associated retirement for non-certificated K-12 20 personnel defined per Louisiana Department of Education Bulletin 1929 to 21 22 include: Aides (function codes 1000-4900s, object code 115); Support 23 Supervisors (function codes 2130s, 2300s (excluding 2311, 2321, 24 25 2324, 2831 and 2832) and 2500-4900s, object code 111); Clerical/Secretarial (function codes 1000-4900s, object code 114); 26

Service Workers (function codes 1000-4900s, object code 116); Skilled Craftsmen (function codes 1000-4900s, object code 117); Degreed Professionals (function codes 1000-4900s, (excluding 2134s) object code 118); and Other Personnel (function codes

1	1000-4900s, object codes 100, 110 and 119).
2	STEP SEVEN: Calculate Certificated Mentor Teacher Stipend Allocation
3	Certificated Mentor Teachers serving in the role of a Mentor Teacher based on the
4	staffing data submitted to the official department personnel data reporting system as of
5	October 1 will receive a stipend of \$2,000. This amount must be provided to each mentor
6	teacher by each school district or school in which they are employed.
7	2. <u>Allocations for Other Public Schools</u>
8 9	STEP ONE: Louisiana State University, Southern University, and University of Louisiana at Lafayette Laboratory Schools
10 11	1. State Cost Allocation
12	a. The February 1 Student Membership count at the Louisiana
13	State University, Southern University, and University of Louisiana at
14	Lafayette Lab Schools shall be multiplied by the Average State Cost
15	Allocation Per Pupil to equal the Louisiana State University, Southern
16	University, and University of Louisiana at Lafayette Lab Schools State Cost
17	Allocation.
18	b. Funds appropriated for these schools shall be allocated to the
19	institution of higher education operating such a school. Each such institution
20	of higher education shall ensure the equitable expenditure of such funds to
21	operate such schools.
22	STEP TWO: Legacy Type 2 Charter Schools
23	A Legacy Type 2 Charter school is a Type 2 Charter school approved by the State
24	Board of Elementary and Secondary Education before July 1, 2008.
25	1. State Cost Allocation
26	a. Any Legacy Type 2 Charter school shall annually be allocated
27	funds as determined by applying the formula contained in R.S. 17:3995.
28	b. The State Cost Allocation equals the number of students
29	multiplied by the State Per Pupil for the system where the student resides.
30	2. Local Cost Allocation
31	a. Any Legacy Type 2 Charter school shall annually be allocated

1	funds as determined by applying the formula contained in R.S. 17:3995.
2	b. The Local Cost Allocation equals the number of students
3	multiplied by the Local Per Pupil for the system where the student resides.
4	c. For any student enrolled in a Legacy Type 2 Charter school,
5	the Local Cost Allocation shall be funded by the State.
6	3. The exclusion of any portion of local revenues specifically dedicated
7	by the legislature or by voter approval to capital outlay or debt
8	service shall be applicable only to a charter school housed in a
9	facility or facilities provided by the district in which the charter
10	school is located.
11	STEP THREE: Office of Juvenile Justice (OJJ) Schools
12	1. Eligible Schools - Any elementary and secondary school operated by
13	the Office of Juvenile Justice (OJJ) in a secure care facility shall be
14	considered a public elementary or secondary school and, as such, the
15	Office of Juvenile Justice (OJJ) shall be annually appropriated funds
16	for these students.
17	2. Eligible Students - Each student counted in the prior year average
18	daily membership, as defined by the State Board of Elementary and
19	Secondary Education in the Student Membership Definition, is
20	calculated by dividing the number of days the student is under the
21	guidance and direction of teachers by the total instructional days
22	during the specified school year.
23	3. Allocation - The Office of Juvenile Justice (OJJ) shall annually be
24	allocated funds for the eligible students. For each student enrolled in
25	these schools, both a State Cost Allocation and a Local Cost
26	Allocation shall be provided.
27	4. State Cost Allocation
28	a. The State Cost Allocation is equal to the State Cost Allocation
29	Per Pupil for the system where each student resided prior to
30	adjudication multiplied by the prior year average daily membership

1		of the Office of Juvenile Justice schools.
2		b. The State Cost Allocation Per Pupil allocation shall be
3		adjusted based on a factor determined by the Louisiana Department
4		of Education to provide for the differential in the number of
5		educational days provided to the students in the custody of the Office
6		of Juvenile Justice (OJJ).
7		c. Additionally, the State Cost Allocation Per Pupil shall be
8		adjusted based on a factor determined by the Louisiana Department
9		of Education to recognize the increased number of special education
10		students in the Office of Juvenile Justice (OJJ) schools relative to the
11		state average special education student population.
12		d. The average daily membership will be reconciled on an
13		annual basis using the latest available data.
14	5.	Local Cost Allocation
15		a. Each student counted in the prior year average daily
16		membership, as defined by the State Board of Elementary and
17		Secondary Education, shall be provided for and funded from the
18		minimum foundation program a Local Cost Allocation Per Pupil
19		equal to the Local Cost Allocation Per Pupil for the district where the
20		student resided prior to adjudication.
21		b. The Local Cost Allocation is equal to the Local Cost
22		Allocation Per Pupil for the system where each student resided prior
23		to adjudication multiplied by the prior year average daily
24		membership of the Office of Juvenile Justice schools.
25		c. For the purpose of the Local Cost Allocation Per Pupil, the
26		average daily membership of the Office of Juvenile Justice (OJJ)
27		shall be included in the membership counts of the city, parish, or
28		other local public school board in which the student resided prior to
29		adjudication to the Office of Juvenile Justice.
30		d. For a district(s) that shares local revenue, the allocation for

1		the Office of Juvenile Justice will be completed before the
2		calculation of local revenues.
3		e. The Local Cost Allocation Per Pupil shall be funded with a
4		transfer of the MFP monthly amount representing the Local Cost
5		Allocation Per Pupil from the city, parish, or other local public school
6		board in which the attending students resided prior to adjudication to
7		the Office of Juvenile Justice (OJJ).
8		f. The average daily membership will be reconciled on an
9		annual basis using the latest available data.
10	3.	Mid-Year Student Allocations
11		a. Student counts in October and February may result in
12		mid-year allocation adjustments for the following: city and parish
13		school systems, Recovery School District, New Type 2 Charter
14		schools, Legacy Type 2 Charter schools, Type 3B Charter schools,
15		Louisiana State University, Southern University, and University of
16		Louisiana at Lafayette Lab schools, Louisiana School for Math,
17		Science and the Arts (LSMSA), New Orleans Center for Creative
18		Arts (NOCCA), and Thrive Academy.
19		b. If the current year October 1 Mid-Year Student Count is more
20		or less than the prior year February 1 student count, an adjustment to
21		the current year allocation shall be made for each student gained or
22		lost. The October adjustment equals the number of students gained
23		or lost times the annual State Cost per pupil allocation amount for the
24		system or school in which the change occurred. The February
25		adjustment equals the number of students gained or lost times
26		one-half of the State Cost per pupil allocation for the system or
27		school in which the change occurred.
28		c. Individual adjustments shall be made for increases or
29		decreases in the October or February Mid-Year Student Counts for

the Recovery School District, the system of prior jurisdiction, and

Type 5 Charter schools. 1 2 d. Mid-Year adjustments for the Recovery School District shall 3 utilize the final State Cost per pupil allocation for the system of prior 4 jurisdiction. If the Recovery School District qualifies for an October 5 e. Mid-Year Adjustment to the State Cost per pupil allocation, a 6 Mid-Year adjustment shall also be made to the Local Cost per pupil 7 8 allocation for the system of prior jurisdiction. The October Local 9 Cost per pupil allocation shall be recalculated based on updated revenue data for the system of prior jurisdiction. There shall be no 10 11 recalculation of the Local Cost per pupil allocation in conjunction 12 with the February 1 student count. f. 13 City, Parish, or Local public school systems or schools in the 14 first year of operation are not eligible for an October Mid-Year 15 Adjustment. However, their allocation will be finalized using October 16 1 data. The newly opened city, parish, or local public school systems or schools will qualify for the February 1 mid-year adjustment. 17 18 October and February Mid-Year Adjustments shall be g. 19 combined and applied in the March through June payments. 20 **Total MFP State Cost Allocation** 21 Formula: 22 **Total MFP State Cost Allocation** 23 Equals Level 1 State Cost Allocation 24 25 Plus Level 2 State Cost Allocation 26 27 Plus Level 3 State Cost Allocation 28 29 Plus Level 4 State Cost Allocation 30

1	II. FO	ORMULA CALCULATIONS FOR STATE-APPROVED PUBLIC
2	SC	HOOLS
3	A. <u>Re</u>	covery School District
4	1.	State Cost Allocation
5		a. Once all final calculations are made, the final State Cost
6		Allocation Per Pupil Amount for the city or parish school system
7		which counted the Recovery School District students will be
8		multiplied by the February 1 Recovery School District Student
9		Membership Count to equal the Recovery School District State Cost
10		Allocation.
11		b. In a system with one or more Type 3B charter schools, if the Type
12		3B charter is not its own LEA, the local school system shall distribute
13		minimum foundation program formula funds to each Type 3B charter
14		school in the system pursuant to calculations determined by the
15		Louisiana Department of Education. If the Type 3B charter is its
16		own LEA, such payments shall be made to the Type 3B charter
17		school by the Louisiana Department of Education. Such calculations
18		shall include differentiated funding weights for certain students,
19		including students identified as being eligible for special education
20		services. The calculations shall ensure equity so that each Type 3B
21		charter school in the system receives a per-pupil amount equal to the
22		amount a Type 5 charter school located in the same parish or school
23		system boundary would have received from the Recovery School
24		District (RSD).
25	2.	Local Cost Allocation
26		a. In addition to the State Cost Allocation, the Recovery School
27		District shall receive an applicable Local Cost Allocation.
28	<u>Fo</u>	rmula:
29	Lo	cal Cost Allocation Per Pupil
30		Equals

1	Projected Local Revenues from District of Prior Jurisdiction
2	Divided by
3	Total School District Membership (Recovery School District Student
4	Membership Count plus Student Membership Count for the system of
5	prior jurisdiction plus New Type 2 Charter school students residing in
6	the jurisdiction)
7	b. To begin the fiscal year, the Local Cost allocation is based on
8	eligible projected local revenues for the most recent prior fiscal year
9	from the city or parish school district that had jurisdiction of the
10	school prior to its transfer.
11	c. For purposes of the Recovery School District calculation,
12	local revenue is defined to include revenue from the following
13	sources, excluding any portion which has been specifically dedicated
14	by the legislature or by voter approval to capital outlay or debt
15	service, per the definitions in the Annual Financial Report (AFR) and
16	the Louisiana Accounting and Uniform Governmental Handbook as
17	reported to the Louisiana Department of Education:
18	1. Sales and use taxes, less any tax collection fee paid by the
19	school system
20	2. Ad valorem taxes, less any tax collection fee paid by the
21	school system
22	3. Earnings from sixteenth section lands owned by the school
23	system
24	d. The exclusion of any portion of local revenues specifically
25	dedicated by the legislature or by voter approval to capital outlay or
26	debt service shall be applicable only to a charter school housed in a
27	facility or facilities provided by the system in which the charter
28	school is located.
29	e. The projected local revenues shall be divided by the Total
30	School District Membership Count including the Recovery School

1	District Student Membership Count, both operated and charter
2	schools, plus the Student Membership Count of the system of prior
3	jurisdiction. If any New Type 2 Charter School student resides within
4	the physical boundaries of the system of prior jurisdiction, this school
5	the student attends shares in the local revenues of the system of prior
6	jurisdiction. As a result, the New Type 2 Charter School Student
7	Membership Count of the students residing in the jurisdiction will be
8	added to the Recovery School District and the system of prior
9	jurisdiction Student Membership Count.
10	f. The Local Cost Allocation for the Recovery School District
11	is determined by multiplying the local revenue per pupil times the
12	number of Recovery School District students used in the MFP final
13	allocation.

Based on the October 1 Student Membership Count, the local revenue allocation per student will be recalculated and there will be a corresponding adjustment in the local revenue allocation. No recalculation of the local revenues per student will occur as a result

local revenue data. 1 2 j. A final reconciliation will occur based upon the receipt of the 3 annual audited financial statements of the system of prior 4 jurisdiction. If an increase or decrease in local revenue collections exists, the state superintendent may establish a payment schedule. In 5 the event that the fiscal status of the system of prior jurisdiction or 6 the Recovery School District changes during the fiscal year or on or 7 8 before the final reconciliation, the state superintendent may adjust the 9 local revenue based on the revenues identified. 10 3. Monies appropriated to the Recovery School District, except for administrative costs, that are attributable to the transfer of a school from a 11 prior school system and monies allocated or transferred from the prior system 12 13 to the Recovery School District shall be expended solely on the operation of 14 schools transferred from the prior system to the jurisdiction of the Recovery School District. 15 16 В. **New Type 2 Charter Schools** A New Type 2 Charter school is a Type 2 Charter school approved after July 1, 17 18 2008, by the State Board of Elementary and Secondary Education. 19 1. State Cost Allocation 20 Any New Type 2 Charter School shall annually be provided a. 21 a State Cost Allocation as determined by applying the formula contained in R.S. 17:3995. 22 23 b. The State Cost Allocation equals the number of students multiplied by the State Cost Allocation Per Pupil for the system in 24 25 which the student resides. Mid-Year Adjustments shall adhere to the guidelines 26 c. established in this document. 27 Local Cost Allocation 28 2. 29 Any New Type 2 Charter school shall annually be provided a. 30 a Local Cost Allocation by applying the formula contained in R.S.

1	17:3995.
2	b. The Local Cost Allocation equals the number of students
3	multiplied by the Local Cost Allocation Per Pupil for the system in
4	which the student resides.
5	c. One exception to R.S. 17:3995 is that the Local Cost
6	allocation will be funded with a transfer of the MFP monthly amount
7	representing the Local Cost Allocation from the city or parish school
8	system in which the attending students reside.
9	d. The city or parish where students attending the New Type 2
10	Charter school reside is the local taxing authority and shall provide
11	the local support for the students.
12	e. Mid-Year Adjustments will adhere to the guidelines
13	established in this document.
14	3. Virtual Charter schools may receive, as approved by the State Board of
15	Elementary and Secondary Education, a lesser percentage of the state and
16	local amount calculated in R.S. 17:3995.
17	4. Where student attendance is from multiple school systems, the
18	Department of Education shall determine the Local Cost Allocation based on
19	students reported by the schools. The student membership count of the New
20	Type 2 charter schools shall be included in the membership count of the city
21	or parish school board in which the student resides to determine the Local
22	Cost Allocation.
23	5. In the first year of operation, a New Type 2 Charter school shall be
24	allocated funding based on an estimated student count since a February 1
25	student count does not exist. The allocation will be finalized based on the
26	October 1 student count.
27	6. The exclusion of any portion of local revenues specifically dedicated by
28	the legislature or by voter approval to capital outlay or debt service shall be
29	applicable only to a charter school housed in a facility or facilities provided
30	by the district in which the charter school is located.

1	C. Louisiana School for Math, Science, and the Arts (LSMSA), New Orleans
2	Center for Creative Arts (NOCCA), and Thrive Academy.
3	1. The Louisiana School for Math, Science and the Arts (LSMSA), New
4	Orleans Center for Creative Arts (NOCCA), and Thrive Academy shall be
5	provided both a State and Local Cost allocation.
6 7	2. State Cost Allocation
8	a. The State Cost Allocation shall be based on the State Cost
9	Allocation Per Pupil for the city or parish school system
10	where the attending students reside.
11 12	3. Local Cost Allocation
12	a. The Local Cost Allocation will be based on the Local Cost
14	Allocation for the city or parish school system where the
15	attending students reside.
16	b. For any student enrolled in LSMSA, NOCCA, or Thrive
17	Academy, the Local Cost Allocation Per Pupil shall be
18	funded by the State.
19	c. Where student attendance is from multiple school systems,
20	the Department of Education shall determine the Local Cost
21	Allocation based on students reported by the schools.
22	III. FORMULA PROCEDURES
23	A. <u>Preliminary Allocation</u>
24	1. The Minimum Foundation Program formula for the upcoming
25	fiscal year adopted by the State Board of Elementary and Secondary
26	Education, along with a preliminary allocation schedule representing
27	the estimated cost of the proposed formula, shall be submitted to the
28	Joint Legislative Committee on the Budget and to the House and
29	Senate Education Committees for consideration no later than March
30	15.
31	2. This preliminary allocation shall utilize student and other input
32	data available at the time.

B. Final Allocation

Final allocations for the fiscal year in which the formula takes effect will be determined no later than June 30 of the preceding fiscal year. The latest available data will be utilized to calculate the final allocation except that student count estimates will be utilized for school systems or charter schools opening for the first time in the fiscal year beginning July 1. For first-year city, parish, or other public school systems or schools, the final allocation will be based on the October 1 count, once available.

9

10

1

IV. FORMULA PAYMENTS

A. Payment Procedures

11The Total MFP State Cost Allocation for city, parish, and other school12systems and schools will be converted to monthly payments from July13through June each year except payments will be made on Level 4 allocations14as data becomes available.

15 B. Requested Payment Adjustments

16If the city, parish, or other school systems and schools have documented17growth in students prior to the actual Mid-Year Student Counts in October18and February, a temporary change to the final allocation may be requested.19The State Superintendent is authorized to approve or deny this revision.

20
21
1. Sufficient documentation will be requested to substantiate this
21
requested allocation adjustment.

22 2. The adjusted allocation will remain in effect until the actual
23 October or February Mid-Year Student Count. Once the Mid-Year
24 Student Count is final, reconciliation will be completed and payments
25 adjusted accordingly.

26 C. Payment Adjustments for Audit Findings

Review and/or audit of the systems' or schools' data used in determining their
Minimum Foundation Program allocation may result in changes in final
statistical information. The Minimum Foundation Program allocation
adjustments necessary as a result of these audit findings will be made in the

1	following school year. These adjustments are applicable to the following:
2	city or parish school systems, Recovery School District, Type 2 Charter
3	schools, Type 3B Charter schools, Louisiana State University, Southern
4	University, and University of Louisiana at Lafayette Lab schools, Office of
5	Juvenile Justice (OJJ) schools, Louisiana School for Math, Science and the
6	Arts (LSMSA), New Orleans Center for Creative Arts (NOCCA), and Thrive
7	Academy.
8	V. 70% EXPENDITURE REQUIREMENT
9	To provide for appropriate accountability of state funds while providing city,
10	parish, or local public school systems or other public schools flexibility in
11	determining specific expenditures, city, parish, or local public school systems
12	or other public schools must ensure that at least 70% of the city, parish, or
13	local public school system or other public school general fund expenditures
14	are in the areas of instruction and school administration at the school
15	building level as developed by the Louisiana Department of Education and

- 17 regulations.
- 18

VII. SEVERABILITY PROVISION

19 If any provision of this minimum foundation formula or the application 20 thereof is held invalid, such invalidity shall not affect other provisions or 21 applications of this minimum foundation formula which can be given effect 22 without the invalid provisions or applications, and to this end the provisions 23 of this minimum foundation formula are hereby declared severable. The severability provision hereof shall be broadly construed so as to give effect 24 25 to each and every possible provision or application of this minimum foundation formula which is not specifically held invalid, unlawful, or 26 27 unconstitutional.

defined by the State Board of Elementary and Secondary Education

THEREFORE, BE IT RESOLVED that the Legislature of Louisiana does hereby
 approve the formula developed by the State Board of Elementary and Secondary Education,
 pursuant to Article VIII, Section 13(B) of the Constitution of Louisiana, to determine the

1 cost of a minimum foundation program of education in all public elementary and secondary

2 schools as well as to equitably allocate the funds to parish and city school systems, and

3 adopted by the board on March 10, 2021.

4 BE IT FURTHER RESOLVED that this Resolution shall become effective on

5 July 1, 2021.

The original instrument and the following digest, which constitutes no part of the legislative instrument, were prepared by Jeanne C. Johnston.

DIGEST SCR 2 Original 2021 Regular Session Fields

Provides for legislative approval of the Minimum Foundation Program (MFP) formula for FY 2021-2022 to determine the cost of a Minimum Foundation Program of education in all public elementary and secondary schools as well as to equitably allocate the funds to local public school systems as developed by the State Board of Elementary and Secondary Education (BESE) and adopted by the board on March 10, 2021.

The MFP formula currently in effect is the formula adopted by the board and approved by the legislature for the Fiscal Year 2019-2020.

Proposed formula has a projected cost of \$3.918 billion.

<u>Proposed formula</u> continues to utilize four levels to determine MFP funding allocations to city, parish, and other local public school systems and schools as follows:

- Level 1 Calculate State and Local Cost Allocation
- Level 2 Incentive for Local Effort
- Level 3 Legislative Allocations
- Level 4 Supplementary Allocations

<u>Proposed formula</u> makes the following significant changes to the <u>present formula</u>, with a combined projected cost of approximately \$84 million:

Level One:

Increases the base per pupil funding amount <u>from</u> \$4,015 to \$4,070, which represents a 1.375% increase, with a projected cost of approximately \$40 million.

Level Four:

- Provides a pay raise of \$400 for certificated employees and \$200 for support workers, plus related retirement costs, with a projected cost of approximately \$40 million.
- Adds a new allocation category which provides a \$2,000 stipend for certified mentor teachers, with a projected cost of approximately \$4 million.

Effective July 1, 2021.
