

1           WHEREAS, routine and preventive dental care is important to a person's overall  
2 health, and many states have found that investing in preventive dental care for Medicaid  
3 enrollees saves public dollars on a net cost basis by preventing emergency room visits and  
4 expensive, complicated treatments arising from neglect of oral health; and

5           WHEREAS, policymakers in Louisiana have heretofore overlooked the necessity of  
6 providing dental coverage for adults with intellectual and developmental disabilities, a cause  
7 for which advocates for this population have been fighting for many years; and

8           WHEREAS, neglecting the oral health of persons with intellectual and  
9 developmental disabilities leads to avoidable expenditures of public funding in the form of  
10 hospitalizations and oral and maxillofacial surgeries; and

11           WHEREAS, policymakers should consider not only the cost impact of continuing  
12 to deny Medicaid coverage for routine dental care for adult ICF/ID residents, but also the  
13 pain that these persons endure, often without the capacity to understand or communicate  
14 verbally about their condition, and the hardships that their family members and other  
15 caregivers go through when they have to be hospitalized or have oral surgery due to a  
16 preventable oral health condition; and

17           WHEREAS, House Bill No. 172 of the 2021 Regular Session of the Legislature (HB  
18 172) has proposed to institute a dental coverage requirement in the state Medicaid program  
19 for all persons of age twenty-one or older who are either enrolled in a Medicaid waiver  
20 program for persons with developmental or intellectual disabilities or reside in an ICF/ID  
21 facility; and

22           WHEREAS, the Louisiana Department of Health administers the Medicaid program  
23 of this state; and

24           WHEREAS, the department has indicated that if funding is available, and subject to  
25 approval by the Centers for Medicare and Medicaid Services, it could provide Medicaid  
26 dental coverage for adult waiver program enrollees as proposed in HB No. 172; but that,  
27 even with funding availability, reimbursement for dental services delivered to ICF/ID  
28 residents would still have complicating factors relating to the way that per diem payments  
29 to these facilities are structured.

1           THEREFORE, BE IT RESOLVED that the Legislature of Louisiana does hereby  
2 urge and request the Louisiana Department of Health to study potential means of financing  
3 dental care for adult residents of intermediate care facilities for persons with intellectual and  
4 developmental disabilities.

5           BE IT FURTHER RESOLVED that the Louisiana Department of Health shall report  
6 findings of the study called for in this Resolution to the House Committee on  
7 Appropriations, the Senate Committee on Finance, the House Committee on Health and  
8 Welfare, and the Senate Committee on Health and Welfare no later than sixty days prior to  
9 the convening of the 2022 Regular Session of the Legislature of Louisiana.

10           BE IT FURTHER RESOLVED that a copy of this Resolution be transmitted to the  
11 secretary of the Louisiana Department of Health.

HCR 34 Engrossed

2021 Regular Session

Butler

Urges and requests the La. Department of Health (LDH) to study potential means of financing dental care for adult residents of intermediate care facilities for persons with intellectual and developmental disabilities.

Requires LDH to report findings of the study to the House Committee on Appropriations, the Senate Committee on Finance, and the legislative committees on health and welfare no later than 60 days prior to the convening of the 2022 R.S.

Summary of Amendments Adopted by House

The Committee Amendments Proposed by House Committee on Health and Welfare to the original bill:

1. Revise statements regarding Medicaid coverage and access to dental care by residents of intermediate care facilities for persons with intellectual and developmental disabilities.
