BUDGETARY CONTROLS

RE SEE FISC NOTE GF EX See Note

Page 1 of 2

Provides relative to budgetary operations and funding for the Department of Transportation and Development

Present law requires the treasurer to deposit the avails of taxes from the sale, use, lease, rental, distribution, consumption and storage for use or consumption of motor vehicles into the TTF on certain triggering conditions in an amount equal to an increase in SGF as certified by the Revenue Estimating Conference as being attributable to certain mineral revenues. Proposed law provides for legislative review of departmental operations; requires the legislative auditor to commence a comprehensive audit of DOTD to include operations, efficiency, and use of the Construction Subfund of the TTF-Regular; requires the treasurer to deposit the avails of motor vehicle sales taxes into the Construction Subfund of the TTF beginning with 10% of the total in FY 22 and increasing by 10% cumulative until 100% of avails are so deposited in FY 31; repeals deposit of certain mineral revenues into the TTF on certain triggers; and requires DOTD to develop an online platform to provide public access to Highway Priority Program information, specifies online content and requires raising public awareness.

EXPENDITURE EXPLANATION

Proposed law will reallocate the appropriation of SGF totaling \$47.4 M in FY 22 derived from 10% of the state sales tax on the sale, use, lease or rental of motor vehicles into the Construction Subfund of the Transportation Trust Fund. The percentage of motor vehicle sales taxes to be deposited into the Construction Subfund will increase by a cumulative 10% annually until 100% of the avails are so deposited in FY 31.

LA Constitution Article VII, §27(B)(2) provides that, "monies in the subfund shall be appropriated and dedicated solely for the direct costs associated with actual project delivery, construction, and maintenance of transportation and capital transit infrastructure projects of the state and local government. The monies in the subfund that are appropriated by the legislature to the Department of Transportation and Development, or its successor, shall not be utilized by the department for the payment of employee wages and related benefits or employee retirement benefits." These monies will generally be available for appropriation in the Capital Outlay Appropriation Bill to provide for construction and project delivery or to DOTD in the General Appropriations Bill for operating costs associated with project delivery and maintenance. While proposed law does not create a direct, material change in specific expenditures within DOTD, monies derived from the state sales tax on motor vehicles are currently appropriated out of the SGF to other general purposes statewide.

SEE EXPENDITURE EXPLANATION CONTINUED ON PAGE TWO

REVENUE EXPLANATION

Proposed law does not create a direct material effect on governmental revenues, **but does require** a deposit of SGF in an amount equal to 10% of the state sales tax on the sale, use, lease or rental of motor vehicles into the Construction Subfund of the Transportation Trust Fund. The percentage of motor vehicle sales taxes to be deposited into the Construction Subfund will increase by a cumulative 10% annually until 100% of the avails are so deposited in FY 31. **For illustrative purposes, the LFO reports the reallocation of the SGF dollars as a negative to the SGF and an increase to Ded./Other in order to illustrate that these revenues will be allocated to a specific purpose within DOTD rather than being available to the legislature to provide for other general, nonspecific expenditures of the state as in present law.**

NOTE: The amounts reported in the revenue block above for FYs 22 through 25 depict the 1/19/21 forecast by the Revenue Estimating Conference for motor vehicle sales tax collections multiplied by the 10% cumulative increases (10% in FY 22, 20% in FY 23, 30% in FY 24, 40% in FY 25 and 50% in FY 26). The LFO assumes a 1.013% revenue growth for FY 26 as reported in the revenue block, which is the average of the annual growth rates forecast between FYs 22 and 25.

CONTINUED EXPLANATION from page one:

EXPENDITURE EXPLANATION CONTINUED FROM PAGE ONE

Proposed law provides that no later than July 1, 2022, the LA Legislative Auditor (LLA) shall commence a comprehensive audit of DOTD to include enumerated items such as operations, organizational efficiency, and use of the avails of the taxes deposited into the Construction Subfund of the TTF-Regular. The audit findings shall be submitted to the speaker of the House of Representatives and the President of the Senate no later than September 30, 2023. The LLA estimates expenditures of approximately \$11,000 SGR over the course and scope of the project in FYs 21 through 23 to perform the required audit of the Construction Subfund and report on its findings (depicted in this fiscal note as SEE BELOW in SGR expenditures). LLA will bill DOTD the amount incurred to perform the audit, which will result in a corresponding expenditure increase by DOTD from available sources (depicted in this fiscal note as an INCREASE in Ded./Other expenditures).
