EXPENDITURE EXPLANATION

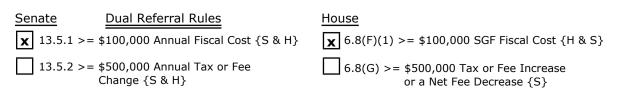

Proposed law will increase one-time expenditures by \$1,731,880 (assumed to be SGF) and recurring expenditures by \$476,266 within the Department of Public Safety, LA State Police (LSP) in FY 23 as a result of implementing automated expungement of criminal records. LSP reports a significant workload increase to accomplish the duties required in the proposed law, which will require overtime for existing employees as well as adding 6 new T.O. positions in FY 23 (Criminal Records Analyst 2). LSP reports they will need to contract with the Office of Technology Services (OTS) in order to upgrade their computer systems for fingerprints and criminal histories. See table on page 2 for detailed expenditures.

Proposed law will increase SGF expenditures within the LA Supreme Court (LSC) by \$737,119 in FY 23 as a result of implementing automated expungement of criminal records. The Case Management Information System (CMIS) Division at the LSC reports increased expenditures of \$1.2 M (split between FY 23 and FY 24) to enhance and upgrade the case management systems at the LSC and the clerks of court; and an annual licensing cost of \$150,000 beginning FY 25. The CMIS division also reports a large workload increase to accomplish the duties described in the proposed law, which will require 4 new T.O. positions (a supervising Attorney and three staff Attorneys/Analysts). See table on page 2 for detailed expenditures.

Proposed law will increase Local Funds expenditures within each of the 64 parish Clerk of Court offices. The LA Clerks of Court Association estimates that each clerk's office would need one additional position for at least four years to implement this measure. See table on page 2 for detailed expenditures. **Expenditure Explanation Continues on Page 2**

REVENUE EXPLANATION

Proposed law will result in an indeterminable decrease in self-generated revenue for the Department of Public Safety, LA State Police (LSP), Clerks of Court, District Attorneys, and Sheriffs as a result of the proposed law. Currently, the Code of Criminal Procedure Article 983 provides for the cost of the expungement of a record. The current total cost to obtain a court order expunging a record shall not exceed \$550. The fees are disbursed as follows: State Police - \$250; Sheriff's department - \$50; District Attorney - \$50; and Clerk of Court - \$200. Code of Criminal Procedure Article 984(C) provides for an additional \$50 fee to be paid to the Department of Public Safety, Office of Motor Vehicles (OMV) for person's filing for an expungement of a record involving the operation of a motor vehicle while intoxicated. Proposed law provides for an automated expungement of criminal records from 2000 to 2021, which eliminates all fees associated with obtaining the expungement of a record by person's filing. The exact decrease in revenue for LSP and OMV as well as local revenue is indeterminable as it is unknown the number of individuals who may file a motion for an expungement in the future that will no longer file as a result of this measure.

Note: In subsequent fiscal years, the fiscal note presumes a 4% increase in salaries and related benefits as well as computer and software equipment.

Clerk of Courts - \$3,548,160 - To implement the proposed law, the LA Clerk of Courts Association reports each parish clerk of court will need at least one additional position to process the approximately 2,595,846 records from 2000 to 2021 that would be eligible for automated expungement. The average annual costs of a clerk position is \$55,440 (\$36,000 salary and \$19,440 related benefits), with a total costs of \$3,548,160 (\$55,440 x 64 positions, one per parish). The Association reports that it will take 4 years to process the approximately 2.5 M records.
