HB 828 Engrossed

2022 Regular Session

Horton

**Abstract:** Increases the gross annual sales threshold under which a home-based preparer of low-risk foods may qualify for the exemption from food preparation laws and regulations provided by the statute known commonly as the cottage food law.

Present law known commonly as the cottage food law exempts home-based preparers of certain foods for sale from present law and present administrative rule relative to preparation of food for public consumption if the preparer's gross annual sales of such foods are less than \$20,000 and certain other conditions are met.

Proposed law increases the gross annual sales threshold provided in the cottage food law from \$20,000 to \$30,000; otherwise, retains present law.

(Amends R.S. 40:4.9(B))

### Summary of Amendments Adopted by House

The Committee Amendments Proposed by House Committee on Health and Welfare to the original bill:

1. Increase the gross annual sales threshold provided in the cottage food law from \$20,000 to \$30,000.
