Proposed law further provides that, if the recipient of the criminal abortion is under the age of 18, the criminal penalty increases to imprisonment at hard labor for not less than 15 years nor more than 50 years, fined not less than \$15,000 nor more than \$100,000, or both. **EXPENDITURE EXPLANATION**

Proposed law expands the definition of criminal abortion and criminalizes delivering, dispensing, distributing, or providing a pregnant woman with an abortion-inducing drug in certain circumstances. The exact fiscal impact of the passage of this legislation is indeterminable, since the legislation creates new crimes and it is not known how many individuals will be convicted of these crimes. However, any offender sentenced to the custody of DPS&C increases SGF expenditures by \$26.39 per day per offender in adult local housing and \$83.23 per day per offender in a state facility. Any offender convicted of these crimes would cost DPS&C \$9,632 annually (\$26.39 per day per offender x 365 days) per offender in adult local housing and \$30,379 annually (\$83.23 per day per offender x 365 days) per offender in a state facility.

There will be an increase in local expenditures to the extent a person is convicted of delivering of an abortion-inducing drug to a person in Louisiana by mail-order, courier, or as a result of a sale made via the internet and is sentenced to imprisonment without hard labor (a misdemeanor). The expenditure increase will depend on the number of persons convicted, the minimum sentence an offender serves, and the cost per day for a local law enforcement agency to incarcerate an offender.

**REVENUE EXPLANATION**

There may be an indeterminable increase in local funds revenue as a result of potential fines if a person is convicted of these new crimes. The maximum fine is \$100,000 and the potential revenue will accrue to the local government entities.
