| 9  | 22:2371 is hereby enacted to read as follows:   |
| 10 | §2361. Short title  |
| 11 | This Chapter shall be known as the "Insure Louisiana Incentive Program",                  |
| 12 | hereinafter and may be referred to as the "program".                                      |
| 13 | §2362. Purposes; public purpose   |
| 14 | A. Louisiana currently is experiencing a crisis in the availability and                   |
| 15 | affordability of insurance for residential and commercial properties. Louisiana           |
| 16 | property owners and their insurers sustained catastrophic losses in 2005 2020 and         |
| 17 | 2021 from Hurricanes Katrina and Rita hurricanes Laura, Delta, Zeta, and Ida.             |
| 18 | As the result of their losses and their assessment of the risk of loss from future        |
| 19 | storms, many insurers have substantially reduced their participation in the voluntary     |
| 20 | market for residential and commercial property insurance. With fewer insurers in the      |
| 21 | voluntary market, competitive pressure on premium rates is reduced. Current               |
| 22 | underwriting practices have resulted in a substantial increase in the number of           |

1 Louisiana property owners forced to obtain their property insurance coverage or their 2 coverage for the wind peril from Louisiana Citizens Property Insurance Corporation 3 (Citizens), the state insurer of last resort. As a result of the 2005 storms, Citizens has 4 a substantial deficit that currently is and must be funded by assessments against 5 insurers and policyholders. The decline in the voluntary insurance market substantially increases Citizens' exposure, thereby threatening to worsen its financial 6 7 condition. Increased premiums and assessments make property insurance coverage 8 unaffordable for some property owners, forcing them to sell or abandon their 9 residential or commercial properties or preventing them from restoring storm-10 damaged properties, causing some residents to leave or fail to return to the state. The 11 availability of property insurance at reasonable cost is essential to the economy of 12 the state. Owners cannot invest in and lenders will not finance the construction and 13 ownership of residential and commercial buildings without adequate property 14 insurance protection. The state has a vital interest in fostering the availability of 15 property insurance at reasonable cost.

16 B. The Insure Louisiana Incentive Program is adopted for the purpose of 17 cooperative economic development and stability in Louisiana by encouraging 18 additional insurers to participate in the voluntary property insurance market in order 19 to substantially increase the availability of property insurance, to substantially 20 increase competitive pressure on insurance rates, and to substantially reduce the volume of business written by the Louisiana Citizens Property Insurance 21 22 Corporation, thereby offering a less expensive alternative to its policyholders and 23 reducing Citizens' Louisiana Citizens Property Insurance Corporation's exposure to an increased deficit and future assessments. 24

25 C. It is hereby declared by the <u>The</u> legislature <u>hereby declares</u> that assuring 26 an adequate and affordable market for insurance for both residential and commercial 27 properties in this state is essential to the economic viability of the state and its 28 citizens, the assurance of an adequate and stable tax base for the state and its political 29 subdivisions, and the health, welfare, and safety of its citizens. Accordingly, the 30 establishment of the Insure Louisiana Incentive Program implemented through
