EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure.

REVENUE EXPLANATION

Proposed law will result in a decrease of approximately \$97,015 Statutory Dedications out of the Conservation Fund starting in FY 24 and \$698,508 Federal from the U.S. Fish and Wildlife Service starting in FY 26. Proposed law removes the \$5 license fee assessed on youth hunting licenses.

From June 1, 2022 to March 31, 2023, the Department of Wildlife and Fisheries sold 19,403 youth hunting licenses. Assuming the department sells 19,403 licenses per fiscal year, the loss in revenue annually would be \$97,015 (\$5 x 19,403).

In addition, the department receives federal funds from U.S. Fish and Wildlife Service for the Wildlife and Sport Fish Restoration Program partially based on the number of licenses purchased annually (with a two-year delay -- licenses sold in FY 24 receive Federal appropriation in FY 26). For each license sold the department receives approximately \$36. If the department does not charge a fee for the youth hunting license they would be unable to receive the federal funds associated with those licenses, which would equate to a loss of approximately \$698,508 (\$36 x 19,403) annually in federal funds starting in FY 26.
