

1           WHEREAS, according to recent Social Security Administration figures, more than  
2 half a million individuals nationally are affected by the GPO; and

3           WHEREAS, the WEP applies to those persons who have earned federal, state, or  
4 local government retirement or pension benefits, in addition to working in employment  
5 covered under Social Security and paying into the Social Security system; and

6           WHEREAS, the WEP unfairly reduces the earned Social Security benefit using an  
7 averaged indexed monthly earnings formula and may reduce Social Security benefits for  
8 affected persons by as much as one-half of the retirement benefit earned as a public servant  
9 in employment not covered under Social Security; and

10           WHEREAS, the WEP causes hardworking individuals to lose a significant portion  
11 of the Social Security benefits that they earned themselves; and

12           WHEREAS, according to recent Social Security Administration figures, more than  
13 one and a half million individuals nationally are affected by the WEP; and

14           WHEREAS, in certain circumstances, both the WEP and GPO can be applied to a  
15 qualifying survivor's benefit, each independently reducing the available benefit and in  
16 combination eliminating a large portion of the total Social Security benefit available to the  
17 survivor; and

18           WHEREAS, because of the calculation characteristics of the GPO and WEP, the  
19 have a disproportionately negative effect on employees working in lower-wage government  
20 jobs, like policemen, firefighters, teachers, and state employees; and

21           WHEREAS, Louisiana is making every effort to improve the quality of life of its  
22 citizens and to encourage them to live here, yet the current GPO and WEP provisions  
23 compromise their quality of life; and

24           WHEREAS, the number of people affected by GPO and WEP is growing everyday  
25 as more and more people reach retirement age; and

26           WHEREAS, individuals drastically affected by the GPO and WEP may have no  
27 choice but to return to work after retirement in order to make ends meet, but the earnings  
28 accumulated during this return to work can further reduce Social Security benefits the  
29 individual is entitled to; and

1           WHEREAS, the GPO and WEP are established in federal law, and repeal of the GPO  
2 and WEP can only be enacted by congress; and

3           WHEREAS, the Legislature of Louisiana adopted House Concurrent Resolution No.  
4 11 of the 2022 Regular Session memorializing congress to support H.R. 82 of the 117th  
5 Congress and other state legislators to do the same in order to reduce or eliminate the GPO  
6 and WEP.

7           THEREFORE, BE IT RESOLVED that the Legislature of Louisiana does hereby  
8 memorialize the United States Congress to take such actions as are necessary to review the  
9 Government Pension Offset and Windfall Elimination Provision Social Security benefit  
10 reductions and to eliminate or reduce them by supporting H.R. 82 and S. 597 of the 118th  
11 Congress and all similar purposed legislation.

12           BE IT FURTHER RESOLVED that a copy of this Resolution be transmitted to the  
13 presiding officers of the Senate and the House of Representatives of the Congress of the  
14 United States of America and to each member of the Louisiana congressional delegation and  
15 the president of the United States.

HCR 67 Engrossed

2023 Regular Session

Mike Johnson

Memorializes congress to review and eliminate the provisions of federal law which reduce Social Security benefits for persons receiving pension from federal, state, or local governments by supporting H.R. 82 and S. 597 of the 118th Congress.
