

ACT No. 465

2023 Regular Session

HOUSE BILL NO. 2

BY REPRESENTATIVE BISHOP

1 AN ACT

2 To provide with respect to the capital outlay budget and the capital outlay program for state
3 government, state institutions, and other public entities; to provide for the
4 designation of projects and improvements; to provide for the financing thereof
5 making appropriations from certain sources; and to provide for related matters.

6 Be it enacted by the Legislature of Louisiana:

7 Section 1. The following sums or so much thereof as may be necessary are
8 hereby appropriated out of any monies in the state treasury from the sources specified, from
9 federal funds and self-generated revenues belonging to the state of Louisiana and/or
10 collected by boards, commissions, departments, and agencies thereof, all for making capital
11 outlay and for the purposes and in the amounts specified herein for the Fiscal Year
12 commencing July 1, 2023, and ending June 30, 2024, subject to the conditions thereafter
13 provided:

14 A project with funding payable from General Obligation Bonds Priority 1
15 indicates that the funding for the project includes the reauthorization of funding which was
16 previously granted as a line of credit by the State Bond Commission in Fiscal Year 2022-
17 2023. As used in this Section, the term "general obligation bonds" means state general
18 obligation bonds or other evidences of indebtedness payable from the Bond Security and
19 Redemption Fund. The amount set forth in this Section opposite each project, or so much
20 thereof as may be necessary, is hereby appropriated and payable from the source of funding
21 indicated; provided, however, amounts appropriated and payable from federal funds may be
22 encumbered or expended only to the extent such amounts shall have been committed or
23 received. Pursuant to the provisions of R.S. 39:82, funds for planning, acquisition,

1 construction, and major repair projects appropriated by this Act may be retained until
2 completion of the project, even if no bona fide liability exists on the last day of the fiscal
3 year.

4 This Act shall constitute the comprehensive state capital outlay budget for the
5 2023-2024 Fiscal Year. Projects set forth which are payable from the proceeds available
6 from the sale of general obligation bonds shall have the priorities as indicated. The Request
7 for Line of Credit form used by the attorney general and Bond Counsel in evaluating
8 Louisiana Constitutional, Internal Revenue Code, and applicable income tax regulations
9 shall be filed with the commissioner of administration, State Bond Commission, and state
10 attorney general. No general obligation bond cash lines of credit shall be granted to fund any
11 lower priority project prior to the granting of general obligation bond cash lines of credit to
12 fund all higher priority projects (the "general rule"), except as hereinafter provided. This
13 prohibition against funding a lower priority project shall not apply upon a showing of an
14 impossibility or impracticality either to proceed with all unfunded higher priority projects
15 or to proceed with the funding of such projects or any part thereof through the issuance of
16 general obligation bonds for any reason. Such showing shall be stated in reasonable detail
17 in a certificate or certificates signed by the state agency responsible for administering the
18 funding, and filed with the commissioner of administration and the State Bond Commission
19 (hereinafter referred to as "the Commission"). Upon a determination by the Commission
20 that proceeding with such a project or the funding thereof through the issuance of general
21 obligation bonds is impractical or impossible, the Commission may then proceed with the
22 sale of general obligation bonds or the granting of cash lines of credit without regard to the
23 priority of the unfunded projects determined to be impossible or impractical.

24 Upon recommendation by the state agency responsible for administering the
25 funding, if it is determined at any time that proceeding with the project or with the funding
26 thereof is no longer impossible or impractical, the State Bond Commission may rescind the
27 certificate of impossibility or impracticality and may proceed with the project or with the
28 issuance of general obligation bonds or the granting of cash lines of credit to fund the
29 project. Alternatively, the Interim Emergency Board (hereinafter referred to as "the Board"),
30 upon reviewing certificates as described above and determining that proceeding with such
31 projects or the funding thereof through the issuance of general obligation bonds is

1 impossible or impractical, may designate a lower priority for such projects. The Board's
2 determination and lower priority designation shall be submitted to the members of the
3 legislature for their approval in accordance with the provisions of Chapter 3-B of Subtitle
4 I of Title 39 of the Louisiana Revised Statutes of 1950. In accordance with the provisions
5 of Chapter 3-B of Subtitle I of Title 39 of the Louisiana Revised Statutes of 1950, whenever
6 at the written request of the appropriate legislators and agency, the Board determines that
7 an adjustment to a project description originally set forth in such capital budget adopted by
8 the legislature for a current fiscal year is necessary to correct a mistake in a project
9 description, clarify a description, change the scope of a description, or make any other
10 adjustment the Board deems necessary to implement the purpose of the project, such
11 adjustment shall become effective only upon the approval by majority vote of the elected
12 members of each house of the legislature in the manner provided for in Chapter 3-B of
13 Subtitle I of Title 39 of the Louisiana Revised Statutes of 1950.

14 If such approval is granted, notification by the chair or secretary of the Board of
15 the results of the balloting shall be transmitted to the State Bond Commission, which may
16 then proceed with the sale of general obligation bonds or the granting of cash lines of credit
17 for each change approved upon request of the commissioner of administration in accordance
18 with the general rule.

19 With respect to Priorities 1 through 5, a lower priority project may be moved to
20 a higher priority only upon a showing of an emergency or other cause not reasonably
21 anticipated by the legislature, which shall be stated in reasonable detail in a certificate signed
22 by the head of the appropriate department, political subdivision, or agency and filed with the
23 commissioner of administration and the Board. Upon a determination by the Board that such
24 project should be moved to a higher priority because of an emergency or other cause not
25 reasonably anticipated by the legislature, the Board shall designate a higher priority to the
26 project. The matter then shall be submitted to and be subject to the same approval by the
27 members of the legislature in the manner previously indicated in this Section. If such
28 approval is granted, notification by the chair or secretary of the Board of the change of
29 priority shall be transmitted to the State Bond Commission, which then upon request of the
30 commissioner of administration, may proceed with the sale of general obligation bonds or
31 the granting of cash lines of credit in accordance with the general rule. As to projects within

1 a priority, the State Bond Commission acting on requests submitted by the commissioner of
2 administration shall determine when such project, or phases thereof, shall be funded. In
3 making such determination, the State Bond Commission shall consider the amount of
4 proceeds of general obligation bonds to be made available in light of money and capital
5 market conditions; the expenditure requirements of the project; the time required for
6 architectural plans and drawings, public bidding, and site acquisition and preparation;
7 availability of receipt of federal monies; litigation affecting the undertaking or completion
8 of a project; federal tax laws and regulations regarding the sale of municipal bonds; and
9 other items of a similar nature bearing upon the possibility or the necessity to commence a
10 project or any particular phase thereof.

11 Any other provision of this Act to the contrary notwithstanding, projects
12 described in Priority 5 of this Act shall not be moved to a higher priority except upon one
13 of the following conditions: (1) Funding is necessary to complete or additionally fund a
14 project located elsewhere in the Capital Outlay Act. Determination of such condition shall
15 be made by the head of the appropriate department or agency by means of a certificate to
16 that effect filed with the Interim Emergency Board, who shall, by mail ballot, request
17 approval of such change and if approved by a majority of each house of the legislature it
18 shall be funded, or (2) unless required by an emergency or other cause not reasonably
19 anticipated by the legislature, to be in accordance with procedures set forth in this Section.
20 However, the State Bond Commission may authorize a non-cash line of credit for any
21 project in Priority 5 which represents that portion of construction contracts which were let
22 during a previous fiscal year, or construction contracts which will be let during the current
23 fiscal year, but which will not require cash expenditures during the year. Such non-cash
24 lines of credit, when combined with previously sold bonds or with higher priority bonds or
25 lines of credit, or with funds appropriated from other sources, will provide sufficient
26 appropriated funds to award equipment or construction contracts. Contracts shall not be
27 awarded without approval of the division of administration.

28 Upon approval by the State Bond Commission, and subject to compliance with
29 its policies and procedures and the procedures set forth herein, a line of credit providing for
30 the use of funds in anticipation of the sale of general obligation bonds may be granted to the
31 appropriate administering agency or department from the Comprehensive Capital Outlay

1 Escrow Account, or if there is not a sufficient amount available in such account, from other
 2 available state cash in the state treasury, for capital improvement projects for which bond
 3 proceeds are appropriated by a current capital budget, prior to the actual issuance of bonds
 4 for such projects, unless the attorney general advises that an impediment exists to the valid
 5 issuance of the bonds on the date such line of credit is granted.

6 All bonds that are to be repaid, in whole or in part, by revenues generated by the
 7 project shall be designated as "Reimbursement Bonds." The State Bond Commission shall
 8 enter into such agreements as are necessary to provide that the agency or subdivision, whose
 9 project is reimbursable, shall pay the bond debt costs into the Bond Security and Redemption
 10 Fund. Such costs may be paid annually or at the end of the term of the bonds issued as
 11 determined by the State Bond Commission.

12 Priority 1 general obligation bond funding shall be limited to:

13 (1) Projects and amounts which were previously authorized by Act 117 of the
 14 2022 Regular Session of the Legislature; and which were granted cash lines of credit by the
 15 State Bond Commission. The bonds to fund these projects were not sold in Fiscal Year
 16 2022-2023.

17 (2) The reauthorization of the portion of the outstanding Fiscal Year 2022-2023
 18 Priority 5 Non-Cash Lines of Credit for projects which will require cash expenditures in
 19 Fiscal Year 2023-2024 and therefore must be converted to Cash Lines of Credit in Fiscal
 20 Year 2023-2024.

21 (3) Commitments made in the Higher Education Desegregation Settlement
 22 Agreement.

23 Priority 2 general obligation bond projects are for the completion of plans and
 24 specifications, land acquisition, site preparation, or for construction which will begin during
 25 the fiscal year. It is presently anticipated that the listed projects will require the sale of
 26 bonds or extension of lines of credit during the fiscal year after adoption of this Act.

27 Priority 3 general obligation bond projects are for the preparation of plans and
 28 specifications, land acquisition, site preparation, or for construction and shall be limited to
 29 funding for the portion of construction contracts which will not require cash expenditures
 30 during the fiscal year. The projects in this category shall be considered future year projects

1 in the state's five-year capital outlay plan. It is presently anticipated that the listed projects
2 will not require the sale of bonds or extension of lines of credit during the fiscal year.

3 Priority 4 general obligation bond projects are for the preparation of plans and
4 specifications, land acquisition, site preparation, or for construction and shall be limited to
5 funding for the portion of construction contracts which will not require cash expenditures
6 during the fiscal year. The projects in this category shall be considered future year projects
7 in the state's five-year capital outlay plan. It is presently anticipated that the listed projects
8 will not require the sale of bonds or extension of lines of credit during the fiscal year.

9 Priority 5 general obligation bond funding shall be limited to funding for the
10 portion of construction contracts which will not require cash expenditures during the fiscal
11 year. These funds, when combined with previously sold bonds or with higher priority bonds
12 on lines of credit, or with funds appropriated from other sources, will provide sufficient
13 appropriated funds to award contracts. Non-cash lines of credit shall be required prior to the
14 award of these contracts.

15 In accordance with the cash management plan adopted pursuant to R.S.
16 48:251(D) and the provisions of Act 161 of the 1998 First Extraordinary Session, the
17 Department of Transportation and Development is authorized to enter into contracts or
18 agreements for projects approved pursuant to the Highway Priority Program, Airport
19 Construction and Development Priority Program, Port Construction and Development
20 Priority Program, and Statewide Flood Control Program for projects bid and awarded,
21 authorized, or commenced during the fiscal year which do not require cash expenditures for
22 the full contract or agreement amount.
