The original instrument and the following digest, which constitutes no part of the legislative instrument, were prepared by Matt DeVille.

DIGEST 2024 Regular Session

Cloud

<u>Proposed law</u> provides that the chief administrative officer of each publicly owned utility in the state may send a report to the Department of State containing the name, date of birth, mother's maiden name, address, telephone number, Louisiana driver's license or special identification card number, service connection and disconnection date, if available, of every residential customer in the area served by the utility on no less than a quarterly basis. <u>Proposed law</u> further provides that the report shall contain the last four digits of the residential customers' social security number.

<u>Proposed law</u> defines "publicly owned utility" as any publicly owned or municipally controlled company, corporation, partnership, business, system, or person that provides gas, electricity, or water to residential customers in Louisiana.

<u>Proposed law</u> provides that in each parish with a publicly owned utility operating within the parish or a portion of the parish the parish registrar of voters may utilize the report from the publicly owned utility to verify the names and addresses of registered voters in all precincts served by the utility beginning with the fiscal year ending June 30, 2022.

<u>Proposed law</u> provides that if the utility operator provides an address that is different from the voter's address as it appears on his voter registration during the verification process, the registrar of voters shall send the voter an address confirmation card as provided in <u>present law</u>.

Effective August 1, 2024.
