DIGEST

SB 24 Original

2025 Regular Session

McMath

Present law creates the Medical Assistance Programs Fraud Detection Fund for the purpose of funding Medicaid fraud detection programs within the office of the attorney general and the La. Dept. of Health.

Present law requires all monies received by the state pursuant to a Medicaid-related civil award or settlement, except for the amount to make the medical assistance programs whole, to be deposited into the fund.

Proposed law expands the source of monies deposited into the fund to all monies received by any state entity related to a recovery, fine, or penalty pertaining to the medical assistance programs, including all monetary sanctions assessed against providers and managed care organizations.

Present law divides the monies in the fund evenly between the office of the attorney general's Medicaid fraud control unit and the La. Dept. of Health for purposes specified in present law.

Proposed law changes the allocation of funds to first fully fund the Medicaid fraud control unit within the office of the attorney general, then divide the remaining funds evenly between the office of the attorney general's Medicaid fraud control unit and the La. Dept. of Health's program integrity section.

Proposed law limits the fund balance to \$20 million and provides that any monies in excess of the \$20 million fund balance will be used to fund the medical assistance programs.

Effective upon signature of the governor or lapse of time for gubernatorial action.

(Amends R.S. 46:440.1(B)-(E))
