Provides for limitations on appropriations to nongovernmental entities

Proposed law provides that the general appropriation bill, capital outlay bill, or any appropriation bill that contains an appropriation for a budget unit or a political subdivision of the state shall not include an appropriation for a nongovernmental entity which is neither a budget unit nor a political subdivision of the state.

EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure. Proposed law prohibits bills that include appropriations for state agencies or political subdivisions from also including appropriations made to nongovernmental entities. If the legislature chooses to appropriate dollars to nongovernmental entities, a separate bill would be required. The Office of Planning and Budget (OPB) and the Office of Facility and Planning (OF&P) indicate drafting a separate bill would not require additional resources.

For informational purposes, the capital outlay bill has included an average of 59 nongovernmental entities over the past three fiscal years, the general appropriation bill has included an average of 10 nongovernmental entities in 20-945 line-item appropriations over the last three fiscal years, and the supplemental appropriation bill has included an average of 115 nongovernmental entities in 20-945 line-item appropriations over the last three fiscal years.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
