Provides relative to requirements of industrial areas. (8/1/25)

Current law provides that an industrial area (IA) may be established with 51% approval of landowners to include any body of land used solely for industrial purposes or primarily suited for industrial development. Industries located in IAs are required to provide certain infrastructure services, such as streets, water, sewerage, garbage, lighting and fire (with mutual fire protection in emergencies) normally provided by local governments, precluding annexation or incorporation of the data center. An IA locating in the territory of a special service district taxing authority has rates frozen at the rate in place when the IA is established.

Proposed law explicitly classifies the construction and operation of data centers and associated commercial operations as an industrial area. Proposed law allows industrial areas to enter into cooperative agreements with local governments or private entities to provide the required services. Effective August 1, 2025

EXPENDITURES	2025-26	2026-27	2027-28	2028-29	2029-30	5 -YEAR TOTAL
State Gen. Fd.	\$0	\$0	\$0	\$0	\$0	\$0
Agy. Self-Gen.	\$0	\$0	\$0	\$0	\$0	\$0
