EXPENDITURE EXPLANATION

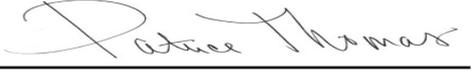

There is no anticipated direct material effect on governmental expenditures as a result of this measure. Proposed legislation authorizes, but does not require, local school boards and charter schools to adopt policies for released time (a period during the school day when students can leave campus for certain off-campus instruction, including religious or other educational programs), subject to written parental consent. To the extent a local school board or charter school adopts a released time policy, any associated increases in workload are expected to be absorbable within existing resources.
