HB 1017 Original

2026 Regular Session

Kerner

Abstract: Prohibits inclusion of certain post-divorce earnable compensation in an ex-spouses's portion of a retirement benefit from the Firefighters' Retirement System (FRS).

Present law, relative to FRS, defines "earnable compensation" as the full amount of compensation earned by an employee on a regular tour of duty, including supplemental pay paid by the state, but not overtime.

Present law further provides that a member's benefit calculation is based on the average of the highest three years of earnable compensation.

Proposed law provides that any increase in a member's earnable compensation that occurs following termination of a community of acquets and gains and that was conditional on the member's passage of both a written examination and a working test shall not be included in the calculation of a former spouse's portion of community property.

Effective upon signature of governor or lapse of time for gubernatorial action.
