

SENATE SUMMARY OF HOUSE AMENDMENTS

SB 43

2026 Regular Session

McMath

KEYWORD AND SUMMARY AS RETURNED TO THE SENATE

HEALTH SERVICES. Provides relative to psychedelic-assisted therapy. (8/1/26)

SUMMARY OF HOUSE AMENDMENTS TO THE SENATE BILL

1. Adds to definition of "psychedelic medication".
2. Adds identification of a state point of contact to coordinate with federal agencies and other states regarding psychedelic assisted therapy and related drug development.
3. Adds encouragement and use of opioid settlement funds and other related monies to support trial and trial-enabling studies.
4. Makes further clarification regarding attributable revenue from newly developed intellectual property as a result of the clinical trial activity.

DIGEST OF THE SENATE BILL AS RETURNED TO THE SENATE

DIGEST

SB 43 Reengrossed

2026 Regular Session

McMath

Proposed law establishes the Psychedelic-Assisted Therapy Initiative within the La. Dept. of Health, office of behavioral health.

Proposed law establishes the following purposes of the initiative:

- (1) To identify academic health centers that are conducting clinical studies and clinical trial-enabling studies for the use of psychedelic-assisted therapy for the treatment of opioid use disorders, co-occurring substance use disorders, and treatment-resistant neurological or mental health conditions.
- (2) To utilize the human service districts and authorities to identify eligible participants.
- (3) To provide information to allow parishes utilizing opioid settlement funds to enroll eligible patients residing in the parish to participate in the studies or to support clinical trial-enabling studies.
- (4) To designate a state point of contact to coordinate with federal agencies and other states with regard to psychedelic assisted therapy and related drug development.

Proposed law authorizes the department to seek and receive federal funds, gifts, grants, and donations for the program in addition to utilizing opioid settlement funds.

Proposed law requires participating academic health centers to submit an annual progress report to the department and requires the department to submit a compiled report to the legislature by March first of each year.

Proposed law requires the participating academic health centers to coordinate with other states that are conducting clinical trials for the use of psychedelic-assisted therapy to the extent feasible.

Proposed law authorizes academic health centers to enter into agreements with drug developers to establish a consortium for purposes of conducting drug development

clinical trials with ibogaine and psychedelic medication treatments and provides for the process to establish a consortium.

Proposed law provides for the distribution of any revenue attributable to newly developed intellectual property rights and other commercial rights arising from a drug development clinical trial, including that not less than two and one half percent of net sales running royalty to the state.

Effective August 1, 2026.

(Adds R.S. 28:211 and 212)
