16 23:2062(5) and (6) and 2065.1 are hereby enacted to read as follows:

17 §20. State and local planning process; local workforce development boards;

18 Transition Advisory Team

19 A. The secretary shall design and implement a ~~state and local planning~~
20 ~~process for workforce training and services, including the certification of~~
21 ~~business/career solution centers and the chartering of local workforce development~~
22 ~~boards, provided through the programs under the jurisdiction of the office of~~
23 ~~workforce development~~ workforce system planning process consistent with the

1 Workforce Innovation and Opportunity Act of 2014, 29 U.S.C. 3101 et seq., and to
 2 the extent allowed by federal law or approved federal waiver. The planning process
 3 may include statewide, regional, or other governance or service delivery structures
 4 as designated by the governor, including the certification of one-stop centers and,
 5 when applicable, the establishment, oversight, consolidation, or restructuring of local
 6 workforce development boards or successor governance entities. The planning
 7 process shall require meaningful consultation with and participation from local
 8 workforce development partners and employers, chief elected officials, and regional
 9 stakeholders in the development, implementation, and modification of such plans.

10 B.(1) There is hereby created a Transition Advisory Team herein referred to
 11 as the "team", which shall advise Louisiana Works throughout the planning process.

12 (2) The team shall be comprised of the following members:

13 (a) The secretary of Louisiana Works.

14 (b) Two local elected officials appointed by the Police Jury Association of
 15 Louisiana.

16 (c) Two employers appointed by the secretary of Louisiana Works.

17 (d) An appointee of the Louisiana Community and Technical College
 18 System.

19 (e) An appointee of Louisiana Economic Development.

20 (f) An appointee from the Louisiana AFL-CIO.

21 (g) Workforce Stakeholder appointed by the secretary of Louisiana Works.

22 §33. Administration funding

23 A. Unless superseded by federal law, the commission may use an amount not
 24 to exceed twenty percent of the amount of funds available to the commission for
 25 workforce training and services to implement state-level responsibilities, including
 26 administration, research and planning, system design and development, and training
 27 and technical assistance. Unless otherwise provided by federal law, Louisiana
 28 Works may reserve and expend funds for state-level administration, planning,
 29 research, system design and development, performance management, oversight,

1 technical assistance, and other statewide workforce system responsibilities in
2 amounts consistent with federal requirements and approved waivers.

3 B. The governor may designate Louisiana Works to act as the fiscal agent
4 for grant funds associated with the Workforce Innovation and Opportunity Act of
5 2014, 29 U.S.C. 3101 et seq., and to the extent allowed by federal law or approved
6 federal waiver.

7 C. In the allocation and expenditure of workforce funds, Louisiana Works
8 shall establish a formal process for meaningful consultation with local workforce
9 partners and employers to ensure that funding decisions reflect regional labor market
10 conditions, employer needs, and workforce priorities.

11 D. It is the intent of the legislature that any modernization of the workforce
12 development system preserves meaningful local input, regional responsiveness, and
13 the engagement of local workforce development partners and employers, chief
14 elected officials, and community stakeholders in decisionmaking processes.

16 §2041. Legislative declaration; intent

17 A. The legislature hereby declares:

18 (1) That the existing vocational, technical, basic and remedial education,
19 support services, employment, and job training programs systems lack statewide
20 coordination and that this lack of statewide coordination makes it difficult to
21 ascertain duplication of services and program impact, and more importantly, does not
22 allow for a serious analysis to determine the responsiveness of the system in meeting
23 the needs of both employers and individuals in need of program services.

24 (2) That global economics and technological forces are creating a new
25 knowledge-intensive economy that requires a highly adaptable and better educated
26 workforce. Yet, too many Louisiana citizens are not prepared for the skill
27 requirements of the workplace. Too many problems persist among our human
28 resources that suggest a growing gap between the skills employers need and the
29 skills both new and experienced workers bring to the labor market. These problems
30 include an unacceptable number of high school drop-outs, high school graduates who

1 show serious skill deficiencies, and adults who are unemployed, are underemployed,
2 or face dislocation in the future because of illiteracy or inadequate basic skills.

3 (3) That the education and skill level of our human resources are the
4 foundation of our economic prosperity and a means by which we can increase
5 productivity, raise our standard of living, and lift our poor out of poverty.

6 B. The legislature hereby finds all of the following:

7 (1) That this state is experiencing sustained economic growth and increased
8 demand for skilled workers across multiple industries, and, as such, requires a
9 workforce development system that is capable of operating at scale and responding
10 quickly to labor market needs.

11 (2) Act No. 330 of the 2024 Regular Session of the Legislature strengthened
12 workforce governance by reinforcing Louisiana Works' role in statewide strategic
13 planning, regional coordination, and system alignment, while promoting greater
14 accountability and performance across workforce programs.

15 (3) The current structure of multiple local workforce development areas
16 results in duplicative administrative costs, fragmented customer service, reduced
17 oversight, and lower investments in direct training and employment services.

18 (4) Federal law permits states to request waivers and administrative
19 flexibilities pursuant to the Workforce Innovation and Opportunity Act to improve
20 efficiency, accountability, and outcomes for workers and employers.

21 C. It is the intent of the legislature to authorize and require Louisiana Works
22 to pursue federal waivers and administrative flexibilities necessary to modernize the
23 state's workforce development system, reduce unnecessary administrative overhead,
24 maximize the share of workforce resources dedicated to direct services and
25 employer-driven strategies, and implement a unified, statewide planning,
26 performance, and accountability framework that prioritizes measurable employment
27 outcomes, employer engagement, and responsible stewardship of federal and state
28 workforce development funds.

 21 Louisiana Works shall not condition the receipt of workforce development funds on
