

RÉSUMÉ DIGEST

ACT 191 (HB 1091)

2026 Regular Session

Boudreaux

Prior law required municipal fire departments, fire protection districts, and volunteer fire departments to obtain fire department identification (FDID) numbers from the state fire marshal.

New law changes prior law to require that municipal fire departments, fire protection districts, and volunteer fire departments instead obtain that number from the National Emergency Response Information System.

Prior law provided that organizations which have been issued an FDID number shall submit structural fire reports electronically pursuant to the standards set by the state fire marshal.

New law changes prior law to require the submissions of reports of all incidents to the state fire marshal.

Effective August 1, 2026.

(Amends R.S. 40:1567(A)(1)(a) and (B))
