1	AN ACT
2	Making appropriations for the ordinary expenses of the executive branch of state
3	government, pensions, public schools, public roads, public charities, and state
4	institutions and providing with respect to the expenditure of said appropriations.
5	Be it enacted by the Legislature of Louisiana:
6	Section 1. The appropriations in this Act from state revenue shall be payable out of the
7	sources specified and shall be limited by the provisions of Article VII, Section 10(D) of the
8	Louisiana Constitution.
9	Section 2. All money from federal, interagency, statutory dedications, or self-generated
10	revenues shall be available for expenditure in the amounts herein appropriated. Any increase
11	in such revenues shall be available for allotment and expenditure by an agency on approval
12	of an increase in the appropriation by the commissioner of administration and the Joint
13	Legislative Committee on the Budget. Any increase in such revenues for an agency without
14	an appropriation from the respective revenue source shall be incorporated into the agency's
15	appropriation on approval of the commissioner of administration and the Joint Legislative
16	Committee on the Budget. In the event that these revenues should be less than the amount
17	appropriated, the appropriation shall be reduced accordingly. To the extent that such funds
18	were included in the budget on a matching basis with state funds, a corresponding decrease

in the state matching funds may be made. Any federal funds which are classified as disaster
or emergency may be expended prior to approval of a BA-7 by the Joint Legislative
Committee on the Budget upon the secretary's certifying to the governor that any delay
would be detrimental to the state. The Joint Legislative Committee on the Budget shall be
notified in writing of such declaration and shall meet to consider such action, but if it is
found by the committee that such funds were not needed for an emergency expenditure, such
approval may be withdrawn and any balance remaining shall not be expended.

8 Section 3.A. Notwithstanding any other law to the contrary, the functions of any 9 department, agency, program, or budget unit of the executive branch, except functions in 10 departments, agencies, programs, or budget units of other statewide elected officials, may 11 be transferred to a different department, agency, program, or budget unit for the purpose of 12 economizing the operations of state government by executive order of the governor. 13 Provided, however, that each such transfer must, prior to implementation, be approved by 14 the commissioner of administration and Joint Legislative Committee on the Budget. Further, 15 provided that no transfers pursuant to this Section shall violate the provisions of Title 36, 16 Organization of the Executive Branch of State Government.

B. In the event that any agency, budget unit, program, or function of a department is transferred to any other department, agency, program, or budget unit by other Act or Acts of the legislature, the commissioner of administration shall make the necessary adjustments to appropriations through the notification of appropriation process, or through approval of mid-year adjustments. All such adjustments shall be in strict conformity with the provisions of the Act or Acts which provide for the transfers.

C. Notwithstanding any other law to the contrary and before the commissioner of administration shall authorize the purchase of any luxury or full-size motor vehicle for personal assignment by a statewide elected official other than the governor and lieutenant governor, such official shall first submit the request to the Joint Legislative Committee on the Budget for approval. Luxury or full-sized motor vehicle shall mean or refer to such vehicles as defined or used in rules or guidelines promulgated and implemented by the Division of Administration.

30 Section 4. Each schedule as designated by a five-digit number code for which an
31 appropriation is made in this Act is hereby declared to be a budget unit of the state.

Section 5.A. The program descriptions, account descriptions, general performance information, and the role, scope, and mission statements of postsecondary education institutions contained in this Act are not part of the law and are not enacted into law by virtue of their inclusion in this Act.

5 B. Unless explicitly stated otherwise, each of the program objectives and the associated 6 performance indicators contained in this Act shall reflect the key performance standards to 7 be achieved for the 2008-2009 Fiscal Year and shall constitute the set of key objectives and 8 key performance indicators which are reportable quarterly for Fiscal Year 2008-2009 under 9 the Louisiana Governmental Performance and Accountability Act, particularly R.S. 39:2(23) 10 and (24) and R.S. 39:87.3. In the event that a department, agency, program, or governing 11 board or commission is directed by language in this Act to prepare and submit new or 12 modified performance information, including but not limited to key and supporting 13 objectives, performance indicators, and performance standards, such submission shall be in 14 a format and method to be determined by the commissioner of administration. Unless 15 otherwise specified in this Act, the submission of new or modified performance information 16 shall be made no later than August 15, 2008. Such performance information shall be subject 17 to the review and approval of both the Division of Administration and the Joint Legislative 18 Committee on the Budget, or a subcommittee thereof.

19 Section 6. Unless expressly provided in this Act, funds cannot be transferred between 20 departments or schedules receiving appropriations. However, any unencumbered funds 21 which accrue to an appropriation within a department or schedule of this Act due to policy, 22 programmatic, or cost-saving/avoidance measures may, upon approval by the commissioner 23 of administration and the Joint Legislative Committee on the Budget, be transferred to any 24 other appropriation within that same department or schedule. Each request for the transfer 25 of funds pursuant to this Section shall include full written justification. The commissioner 26 of administration, upon approval by the Joint Legislative Committee on the Budget, shall 27 have the authority to transfer between departments funds associated with lease agreements 28 between the state and the Office Facilities Corporation.

Section 7. The state treasurer is hereby authorized and directed to use any available funds on deposit in the state treasury to complete the payment of General Fund appropriations for the Fiscal Year 2007-2008, and to pay a deficit arising there from out of

any revenues accruing to the credit of the state General Fund during the Fiscal Year 20082009, to the extent such deficits are approved by the legislature. In order to conform to the
provisions of P.L. 101-453, the Cash Management Improvement Act of 1990, and in
accordance with the agreement to be executed between the state and Financial Management
Services, a division of the U.S. Treasury, the state treasurer is hereby authorized to release
checks drawn on federally funded appropriations prior to the receipt of funds from the U.S.
Treasury.

8 Section 8.A.(1) The figures in parentheses following the designation of a program are 9 the total authorized positions for that program. If there are no figures following a 10 department, agency, or program, the commissioner of administration shall have the authority 11 to set the number of positions.

(2) Any transfer of personnel pursuant to the authority of this Act or any other law shall
be deemed a transfer of the position from the original budget entity to the budget entity to
which such personnel are transferred.

(3) The commissioner of administration, upon approval of the Joint Legislative
Committee on the Budget, shall have the authority to transfer positions between departments,
agencies, or programs or to increase or decrease positions and associated funding necessary
to effectuate such transfers.

19 (4) The number of authorized positions approved for each department, agency, or 20 program as a result of the passage of this Act may be increased by the commissioner of 21 administration in conjunction with the transfer of functions or funds to that department, 22 agency, or program when sufficient documentation is presented and the request deemed 23 valid.

24 (5) The number of authorized positions approved in this Act for each department, 25 agency, or program may also be increased by the commissioner of administration when 26 sufficient documentation of other necessary adjustments is presented and the request is 27 deemed valid. The total number of such positions so approved by the commissioner of 28 administration may not be increased in excess of three hundred fifty. However, any request 29 which reflects an annual aggregate increase in excess of twenty-five positions for any department, agency, or program must also be approved by the Joint Legislative Committee 30 31 on the Budget.

(6) Any employment freezes or related personnel actions which are necessitated as a
 result of implementation of this Act shall not have a disparate employment effect based on
 any suspect classification, i.e., race, sex, color, or national origin or any negative impact
 upon the Equal Employment proposition as set out in the "McDonnell Douglas Test" or Title
 VII of the 1964 Civil Rights Act, as amended.

B. Orders from the Civil Service Commission or its designated referee which direct an
agency to pay attorney's fees for a successful appeal by an employee may be paid out of an
agency's appropriation from the expenditure category professional services; provided,
however, that an individual expenditure pursuant to this Subsection may not exceed \$1,500
in accordance with Civil Service Rule 13.35(a).

11 C. The budget request of any agency with an appropriation level of thirty million dollars 12 or more shall include, within its existing table of organization, positions which perform the 13 function of internal auditing.

D. In the event that any cost assessment allocation proposed by the Office of Group Benefits becomes effective during Fiscal Year 2008-2009, each budget unit contained in this Act shall pay out of its appropriation an amount no less than 75% of total premiums for all active employees and those retirees with Medicare in accordance with R.S. 42:851(A)(1) for the state basic health insurance indemnity program.

E. In the event that any cost allocation or increase adopted by the Joint Legislative Committee on Retirement as recommended by the Public Retirement Systems' Actuarial Committee becomes effective before or during Fiscal Year 2008-2009, each budget unit shall pay out of its appropriation funds necessary to satisfy the requirements of such increase.

Section 9. In the event the governor shall veto any line-item of expenditure and such veto shall be upheld by the legislature, the commissioner of administration shall withhold from the department's, agency's, or program's funds an amount equal to the veto. The commissioner of administration shall determine how much of such withholdings shall be from the state General Fund.

Section 10.A. Pursuant to Article IV, Section 5(G)(2) and Article VII, Section 10(F) of
 the constitution, if at any time during Fiscal Year 2008-2009 the official budget status report

1

indicates that appropriations will exceed the official revenue forecast, the governor shall 2 have full power to reduce appropriations in accordance with R.S. 39:75.

3 B. The governor shall have the authority within any month of the fiscal year to direct 4 the commissioner of administration to disapprove warrants drawn upon the state treasury for 5 appropriations contained in this Act which are in excess of amounts approved by the 6 governor in accordance with R.S. 39:74.

7 C. The governor may also, and in addition to the other powers set forth herein, issue 8 executive orders in a combination of any of the foregoing means for the purpose of 9 preventing the occurrence of a deficit.

10 D.(1) The commissioner of administration is authorized to substitute the means of 11 financing for one time expenditures in this Act which are funded with State General Fund 12 (Direct) to the State General Fund by Statutory Dedications out of the 2004 Overcollection 13 Fund in an amount not to exceed \$60,000,000 so that nonrecurring expenses are more 14 properly funded with revenues which are nonrecurring.

15 (2) The commissioner of administration is authorized to substitute the means of 16 financing for recurring expenditures in this Act which are funded with revenues which are 17 nonrecurring in an amount not to exceed \$60,000,000 so that recurring expenses are more 18 properly funded with revenues which are recurring.

19 Section 11. Notwithstanding the provisions of Section 2 of this Act, the commissioner 20 of administration shall make such technical adjustments as are necessary in the interagency 21 transfers means of financing and expenditure categories of the appropriations in this Act to 22 result in a balance between each transfer of funds from one budget unit to another budget 23 unit in this Act. Such adjustments shall be strictly limited to those necessary to achieve this 24 balance and shall in no way have the effect of changing the intended level of funding for a 25 program or budget unit of this Act.

26 Section 12.A. For the purpose of paying appropriations made herein, all revenues due 27 the state in Fiscal Year 2008-2009 shall be credited by the collecting agency to Fiscal Year 28 2008-2009 provided such revenues are received in time to liquidate obligations incurred 29 during Fiscal Year 2008-2009.

30 B. A state board or commission shall have the authority to expend only those funds that 31 are appropriated in this Act, except those boards or commissions which are solely supported

from private donations or which function as port commissions, levee boards or professional
 and trade organizations.

3 Section 13.A. Notwithstanding any other law to the contrary, including any provision 4 of any appropriation act or any capital outlay act, no special appropriation enacted at any 5 session of the legislature, except the specific appropriations acts for the payment of 6 judgments against the state, of legal expenses, and of back supplemental pay, the 7 appropriation act for the expenses of the judiciary, and the appropriation act for expenses of 8 the legislature, its committees, and any other items listed therein, shall have preference and 9 priority over any of the items in the General Appropriation Act or the Capital Outlay Act for 10 any fiscal year.

B. In the event that more than one appropriation is made in this Act which is payable from any specific statutory dedication, such appropriations shall be allocated and distributed by the state treasurer in accordance with the order of priority specified or provided in the law establishing such statutory dedication and if there is no such order of priority such appropriations shall be allocated and distributed as otherwise provided by any provision of law including this or any other act of the legislature appropriating funds from the state treasury.

18 C. In accordance with R.S. 49:314.B(1),(2) appropriations from the Transportation Trust 19 Fund in the General Appropriation Act and the Capital Outlay Act shall have equal priority. 20 In the event revenues being received in the state treasury and being credited to the fund 21 which is the source of payment of any appropriation in such acts are insufficient to fully fund 22 the appropriations made from such fund source, the treasurer shall allocate money for the 23 payment of warrants drawn on such appropriations against such fund source during the fiscal 24 year on the basis of the ratio which the amount of such appropriation bears to the total 25 amount of appropriations from such fund source contained in both acts.

26 Section 14. Pay raises or supplements provided for by this Act shall in no way supplant 27 any local or parish salaries or salary supplements to which the personnel affected would be 28 ordinarily entitled.

Section 15. Any unexpended or unencumbered reward monies received by any state
 agency during Prior Fiscal Years pursuant to the Exceptional Performance and Efficiency
 Incentive Program may be carried forward for expenditure in Fiscal Year 2008-2009, in

ENROLLED

accordance with the respective resolution granting the reward. The commissioner of
 administration shall implement any internal budgetary adjustments necessary to effectuate
 incorporation of these monies into the respective agencies' budgets for Fiscal Year 2008 2009, and shall provide a summary list of all such adjustments to the Performance Review
 Subcommittee of the Joint Legislative Committee on the Budget by September 17, 2008.

6 Section 16. Should any section, subsection, clause, sentence, phrase, or part of the Act 7 for any reason be held, deemed or construed to be unconstitutional or invalid, such decisions 8 shall not affect the remaining provisions of the Act, and the legislature hereby declares that 9 it would have passed the Act, and each section, subsection, clause, sentence, phrase, or part 10 thereof, irrespective of the fact that one or more of the sections, subsections, clauses, 11 sentences, phrases, or parts thereof, is declared unconstitutional or invalid. To this end, the 12 provisions of this Act are hereby declared severable.

13 Section 17. All BA-7 budget transactions, including relevant changes to performance information, submitted in accordance with this Act or any other provisions of law which 14 15 require approval by the Joint Legislative Committee on the Budget or joint approval by the 16 commissioner of administration and the Joint Legislative Committee on the Budget shall be 17 submitted to the commissioner of administration, Joint Legislative Committee on the Budget 18 and Legislative Fiscal Office a minimum of sixteen working days prior to consideration by 19 the Joint Legislative Committee on the Budget. Each submission must include full 20 justification of the transaction requested, but submission in accordance with this deadline 21 shall not be the sole determinant of whether the item is actually placed on the agenda for a 22 hearing by the Joint Legislative Committee on the Budget. Transactions not submitted in 23 accordance with the provisions of this Section shall only be considered by the commissioner 24 of administration and Joint Legislative Committee on the Budget when extreme 25 circumstances requiring immediate action exist.

17(A). Notwithstanding any contrary provision of this Act or any contrary provision of law, no funds appropriated by this Act shall be released or provided to any recipient of an appropriation made in this Act if, when, and for as long as, the recipient fails or refuses to comply with the provisions of R.S. 24:513. No recipient shall be considered to fail or refuse to comply with the provisions of R.S. 24:513 pursuant to this Section during any extension of time granted by the legislative auditor to the recipient to comply. The legislative auditor 1

is authorized to grant an extension of time to comply with the provisions of R.S. 24:513 for 2 recipient entities of an appropriation contained in this Act.

3 Section 18.A. Except for the conditions set forth in Subsection B of this Section, the 4 following sums or so much thereof as may be necessary are hereby appropriated out of any 5 monies in the state treasury from the sources specified; from federal funds payable to the 6 state by the United States Treasury; or from funds belonging to the State of Louisiana and/or 7 collected by boards, commissions, departments, and agencies thereof, for purposes specified 8 herein for the year commencing July 1, 2008, and ending June 30, 2009. Funds appropriated 9 to auxiliary accounts herein shall be from prior and current year collections, with the 10 exception of state General Fund direct. The commissioner of administration is hereby 11 authorized and directed to correct the means of financing and expenditures for any appropriation contained in Schedule 20-901 - Sales Tax Dedications to reflect the enactment 12 13 of any law enacted in any 2008 session of the Legislature which affects any such means of 14 financing or expenditure. Further provided with regard to auxiliary funds, that excess cash 15 funds, excluding cash funds arising from working capital advances, shall be invested by the 16 state treasurer with the interest proceeds therefrom credited to each account and not 17 transferred to the state General Fund. This Act shall be subject to all conditions set forth in 18 Title 39 of the Louisiana Revised Statutes of 1950 as amended.

19 B.(1) No funds appropriated in this Act shall be transferred to a public or quasi-public 20 agency or entity which is not a budget unit of the state unless the intended recipient of those 21 funds presents a comprehensive budget to the legislative auditor and the transferring agency 22 showing all anticipated uses of the appropriation, an estimate of the duration of the project, 23 and a plan showing specific goals and objectives for the use of such funds, including 24 measures of performance. In addition, and prior to making such expenditure, the transferring 25 agency shall require each recipient to agree in writing to provide written reports to the 26 transferring agency at least every six months concerning the use of the funds and the specific 27 goals and objectives for the use of the funds. In the event the transferring agency determines 28 that the recipient failed to use the funds set forth in its budget within the estimated duration 29 of the project or failed to reasonably achieve its specific goals and objectives for the use of 30 the funds, the transferring agency shall demand that any unexpended funds be returned to 31 the state treasury unless approval to retain the funds is obtained from the division of

ENROLLED

1 administration and the Joint Legislative Committee on the Budget. Each recipient shall be 2 audited in accordance with R.S. 24:513. If the amount of the public funds received by the 3 provider is below the amount for which an audit is required under R.S. 24:513, the 4 transferring agency shall monitor and evaluate the use of the funds to ensure effective 5 achievement of the goals and objectives.

6 (2) Transfers to public or quasi-public agencies or entities that have submitted a budget 7 request to the division of administration in accordance with Part II of Chapter 1 of Title 39 8 of the Louisiana Revised Statutes of 1950 and transfers authorized by specific provisions of 9 the Louisiana Revised Statutes of 1950 and the Constitution of the State of Louisiana to local 10 governing authorities shall be exempt from the provisions of this Subsection.

11 (3) Notwithstanding any other provision of law or this Act to the contrary, if the name 12 of an entity subject to Paragraph (B) of this Section is misspelled or misstated in this Act or 13 any other Act, the state treasurer may pay the funds appropriated to the entity without 14 obtaining the approval of the Joint Legislative Committee on the Budget, but only after the 15 entity has provided proof of its correct legal name to the state treasurer and transmitted a 16 copy to the staffs of the House Committee on Appropriations and the Senate Committee on 17 Finance.

18 (4) Notwithstanding the provisions of this Section, this Act, or any other law to the 19 contrary, there is hereby imposed the Louisiana Department of the Treasury Reducing 20 Irritating Paperwork Strategy (RIPS) as provided for in this Paragraph. Any reports or other 21 information required by the Department of the Treasury before it transfers appropriated 22 funds pursuant to this Act shall not exceed that which can be contained on one sheet of 8.5" 23 by 14" paper, with print no less than a ten point font.

Prevention and Treatment - Authorized Positions (420)

Program Description: Provides prevention services primarily through contracts with nonprofit providers for a community-based prevention and education system to encourage abstinence from alcohol, tobacco, illicit drug use, and problem and compulsive gambling. The Office for Addictive Disorders (OAD) provides a continuum of treatment services: detoxification, primary inpatient, community-based, and outpatient. These treatment services include assessment, diagnosis and treatment of alcohol and drug abuse, alcohol and drug addiction, and problem and compulsive gambling. Detoxification services are provided to individuals suffering from prolonged periods of alcohol and/or drug abuse in both a medical and non-medical setting. Outpatient services are provided by state and private providers in regular and intensive day treatment. Primary inpatient treatment is provided in both intensive inpatient to the community and this treatment is provided through halfway houses, three-quarter way houses, therapeutic community and recovery homes.

47 Provided, however, that the funds specifically appropriated in Fiscal Year 2007-2008 to

related to uncertain enrollment levels and financial stability and recovery efforts that remain
 unexpended by June 30, 2008, shall hereby be carried forward into Fiscal Year 2008-2009
 by each management board for the continued implementation of this initiative.

Provided, however, in the event that any legislative instrument of the 2008 Regular Session
of the Legislature providing for an increase in tuition and mandatory attendance fees is
enacted into law, such funds resulting from the implementation of such enacted legislation
in Fiscal Year 2008-2009 shall be included as part of the appropriation for the respective
public postsecondary education management board.

9 Each management board has the authority to manage and supervise the postsecondary 10 institutions under its jurisdiction. Responsibilities include the following: to employ and/or 11 approve the employment and establish and/or approve the salary of board and university 12 personnel; to actively seek and accept donations, bequests, or other forms of financial 13 assistance; to set tuition and fees; to award certificates, confer degrees, and issue diplomas; 14 to buy, lease, and/or sell property and equipment; to enter into contractual arrangements on 15 behalf of the institutions; to adopt academic calendars; to sue and be sued; to establish and 16 enforce operational policies for the board and institutions; and to perform other such 17 functions as are necessary or incidental to the supervision and management of their 18 respective system.

19 MASTER/Strategic Plan for Postsecondary Education: In accordance with Article VIII, 20 Section 5 (D)(4) of the Constitution and Act 1465 of 1997, the most recently revised Master 21 Plan for Postsecondary Education identifies three primary goals: (1) increase opportunities 22 for student access and success, (2) ensure quality and accountability, and (3) enhance 23 services to community and state. Through the specification of the role, scope, and mission 24 of each postsecondary institution and the adoption of a selective admissions framework, 25 objective targets have been identified. Subsequent strategic and operational plans will reflect 26 regional and institutional strategies for attainment of these statewide goals.

27 Formula: The Board of Regents is constitutionally required to develop a formula for the 28 equitable distribution of funds to the institutions of postsecondary education. The board has 29 adopted a mission-driven formula for two-year and four-year institutions, with separate 30 funding formulas/plans for the Louisiana Technical College, medicine, veterinary medicine, 31 law, agricultural, research, and public service programs that consists of an operational 32 funding plan that includes three broad components: Core Funding; Quality/Campus 33 Improvement and State Priorities Funding, including Workforce and Economic 34 Development; and Performance Incentive Funding.

In the development of the core funding component of the formula funding strategy, the following goals were identified: addressing equity concerns; recognizing differences in institutional missions; encouraging some campuses to grow and others to raise admission standards; and recognizing special programs. To address these goals, the formula core funding component includes as ingredients: mission related funding targets, a high cost academic program factor, an enrollment factor, and allowance for special programs.

The quality component of the formula allows for: targeting resources to strategic programs,
 connecting funding policies with values and strategies identified in the Master Plan for
 Postsecondary Education, allocating resources to support the state's economic development
 goals, encouraging private investment, encouraging efficiencies and good management
 practices, and providing resources to support a quality learning environment.

The performance component of the formula is designed to promote performance evaluation
 and functional accountability. The Board of Regents will continue to develop appropriate
 evaluation mechanisms in the following areas: student charges/costs, student advancement,
 program viability, faculty activity, administration, and mission specific goals unique to each
 institution.

51 The other sources of revenues used to fund the operations of institutions are fees and self-52 generated revenues, primarily consisting of tuition and mandatory fees, interagency transfers 53 from other state agencies, statutory dedications and unrestricted federal funds. **19-671 BOARD OF REGENTS**
