APPROPRIATIONS: Provides for the ordinary operating expenses of state government for Fiscal Year 2009-2010

1 AN ACT

2 Making appropriations for the ordinary expenses of the executive branch of state
3 government, pensions, public schools, public roads, public charities, and state institutions
4 and providing with respect to the expenditure of said appropriations.

5 Be it enacted by the Legislature of Louisiana:

6 Section 1. The appropriations in this Act from state revenue shall be payable out of the
7 sources specified and shall be limited by the provisions of Article VII, Section 10(D) of the
8 Louisiana Constitution.

9 Section 2. All money from federal, interagency, statutory dedications, or self-generated
10 revenues shall be available for expenditure in the amounts herein appropriated. Any increase
11 in such revenues shall be available for allotment and expenditure by an agency on approval
12 of an increase in the appropriation by the commissioner of administration and the Joint
13 Legislative Committee on the Budget. Any increase in such revenues for an agency without
14 an appropriation from the respective revenue source shall be incorporated into the agency's
15 appropriation on approval of the commissioner of administration and the Joint Legislative
16 Committee on the Budget. In the event that these revenues should be less than the amount
17 appropriated, the appropriation shall be reduced accordingly. To the extent that such funds
18 were included in the budget on a matching basis with state funds, a corresponding decrease
19 in the state matching funds may be made. Any federal funds which are classified as disaster
20 or emergency may be expended prior to approval of a BA-7 by the Joint Legislative
21 Committee on the Budget upon the secretary's certifying to the governor that any delay would
22 be detrimental to the state. The Joint Legislative Committee on the Budget shall be notified
23 in writing of such declaration and shall meet to consider such action, but if it is found by the
24 committee that such funds were not needed for an emergency expenditure, such approval

1 may be withdrawn and any balance remaining shall not be expended.

2 Section 3.A. Notwithstanding any other law to the contrary, the functions of any
3 department, agency, program, or budget unit of the executive branch, except functions in
4 departments, agencies, programs, or budget units of other statewide elected officials, may be
5 transferred to a different department, agency, program, or budget unit for the purpose of
6 economizing the operations of state government by executive order of the governor.
7 Provided, however, that each such transfer must, prior to implementation, be approved by
8 the commissioner of administration and Joint Legislative Committee on the Budget. Further,
9 provided that no transfers pursuant to this Section shall violate the provisions of Title 36,
10 Organization of the Executive Branch of State Government.

11 B. In the event that any agency, budget unit, program, or function of a department is
12 transferred to any other department, agency, program, or budget unit by other Act or Acts of
13 the legislature, the commissioner of administration shall make the necessary adjustments to
14 appropriations through the notification of appropriation process, or through approval of mid-
15 year adjustments. All such adjustments shall be in strict conformity with the provisions of
16 the Act or Acts which provide for the transfers.

17 C. Notwithstanding any other law to the contrary and before the commissioner of
18 administration shall authorize the purchase of any luxury or full-size motor vehicle for
19 personal assignment by a statewide elected official other than the governor and lieutenant
20 governor, such official shall first submit the request to the Joint Legislative Committee on
21 the Budget for approval. Luxury or full-sized motor vehicle shall mean or refer to such
22 vehicles as defined or used in rules or guidelines promulgated and implemented by the
23 Division of Administration.

24 D. Notwithstanding any provision of law to the contrary, each agency which has
25 contracted with outside legal counsel for representation in an action against another agency,
26 shall submit a detailed report of all litigation costs incurred and payable to the outside
27 counsel to the commissioner of administration, the legislative committee charged with
28 oversight of that agency, and the Joint Legislative Committee on the Budget. The report
29 shall be submitted on a quarterly basis, each January, April, July, and October, and shall
30 include all litigation costs paid and payable during the prior quarter. For purposes of this
31 Subsection, the term "litigation expenses" shall mean court costs and attorney fees of the

1 agency and of the other party if the agency was required to pay such costs and fees. The
2 commissioner of administration shall not authorize any payments for any such contract until
3 such report for the prior quarter has been submitted.

4 Section 4. Each schedule as designated by a five-digit number code for which an
5 appropriation is made in this Act is hereby declared to be a budget unit of the state.

6 Section 5.A. The program descriptions, account descriptions, general performance
7 information, and the role, scope, and mission statements of postsecondary education
8 institutions contained in this Act are not part of the law and are not enacted into law by virtue
9 of their inclusion in this Act.

10 B. Unless explicitly stated otherwise, each of the program objectives and the associated
11 performance indicators contained in this Act shall reflect the key performance standards to
12 be achieved for the 2009-2010 Fiscal Year and shall constitute the set of key objectives and
13 key performance indicators which are reportable quarterly for Fiscal Year 2009-2010 under
14 the Louisiana Governmental Performance and Accountability Act, particularly R.S. 39:2(23)
15 and (24) and R.S. 39:87.3. In the event that a department, agency, program, or governing
16 board or commission is directed by language in this Act to prepare and submit new or
17 modified performance information, including but not limited to key and supporting
18 objectives, performance indicators, and performance standards, such submission shall be in
19 a format and method to be determined by the commissioner of administration. Unless
20 otherwise specified in this Act, the submission of new or modified performance information
21 shall be made no later than August 15, 2009. Such performance information shall be subject
22 to the review and approval of both the Division of Administration and the Joint Legislative
23 Committee on the Budget, or a subcommittee thereof.

24 Section 6. Unless expressly provided in this Act, funds cannot be transferred between
25 departments or schedules receiving appropriations. However, any unencumbered funds
26 which accrue to an appropriation within a department or schedule of this Act due to policy,
27 programmatic, or cost-saving/avoidance measures may, upon approval by the commissioner
28 of administration and the Joint Legislative Committee on the Budget, be transferred to any
29 other appropriation within that same department or schedule. Each request for the transfer
30 of funds pursuant to this Section shall include full written justification. The commissioner
31 of administration, upon approval by the Joint Legislative Committee on the Budget, shall

1 have the authority to transfer between departments funds associated with lease agreements
2 between the state and the Office of Facilities Corporation.

3 Section 7. The state treasurer is hereby authorized and directed to use any available
4 funds on deposit in the state treasury to complete the payment of General Fund
5 appropriations for the Fiscal Year 2008-2009, and to pay a deficit arising there from out of
6 any revenues accruing to the credit of the state General Fund during the Fiscal Year 2009-
7 2010, to the extent such deficits are approved by the legislature. In order to conform to the
8 provisions of P.L. 101-453, the Cash Management Improvement Act of 1990, and in
9 accordance with the agreement to be executed between the state and Financial Management
10 Services, a division of the U.S. Treasury, the state treasurer is hereby authorized to release
11 checks drawn on federally funded appropriations prior to the receipt of funds from the U.S.
12 Treasury.

13 Section 8.A.(1) The figures in parentheses following the designation of a program are
14 the total authorized positions for that program. If there are no figures following a
15 department, agency, or program, the commissioner of administration shall have the authority
16 to set the number of positions.

17 (2) Any transfer of personnel pursuant to the authority of this Act or any other law shall
18 be deemed a transfer of the position from the original budget entity to the budget entity to
19 which such personnel are transferred. Notwithstanding any law to the contrary, the secretary
20 of a department may transfer, with the approval of the commissioner of administration via
21 midyear budget adjustment (BA-7 Form), up to twenty-five (25) authorized positions and
22 associated personal services funding if necessary from one budget unit to any other budget
23 unit and/or between programs within any budget unit within this schedule. No positions and
24 associated personal services may be transferred between budget units and/or programs within
25 a budget unit without the approval of the Joint Legislative Committee on the Budget.

26 (3) The commissioner of administration, upon approval of the Joint Legislative
27 Committee on the Budget, shall have the authority to transfer positions between departments,
28 agencies, or programs or to increase or decrease positions and associated funding necessary
29 to effectuate such transfers.

30 (4) The number of authorized positions approved for each department, agency, or
31 program as a result of the passage of this Act may be increased by the commissioner of

1 administration in conjunction with the transfer of functions or funds to that department,
2 agency, or program when sufficient documentation is presented and the request deemed
3 valid.

4 (5) The number of authorized positions approved in this Act for each department,
5 agency, or program may also be increased by the commissioner of administration when
6 sufficient documentation of other necessary adjustments is presented and the request is
7 deemed valid. The total number of such positions so approved by the commissioner of
8 administration may not be increased in excess of three hundred fifty. However, any request
9 which reflects an annual aggregate increase in excess of twenty-five positions for any
10 department, agency, or program must also be approved by the Joint Legislative Committee

15 implementation of cost containment strategies to control the cost of the New Opportunities Waiver
