

New law provides for a permit to be issued for noncritical off-road equipment to tow a motor vehicle.

New law provides that a permit may be issued for noncritical off-road equipment to tow a vehicle if the federal government does not object.

New law provides that a permit may be issued if the noncritical off-road equipment and combination of the noncritical off-road equipment and towed vehicle do not exceed certain lengths.

New law provides requirements for noncritical off-road equipment towing a vehicle and carrying counterweights.

Effective August 15, 2009.
