EXPENDITURE EXPLANATION

There is no anticipated direct material effect on local government expenditures as a result of this measure.

According to officials with the Catahoula Assessor's Office, there is no current fiscal impact. However, there is one employee who is currently eligible for retirement. The insurance premium for that employee is estimated to be approximately $16,000 per year upon retirement. Under current law, if the employee retired today, he would receive no insurance benefits. If the bill passes and he retires today, there would be an increase in expenditures. But, we are uncertain as to when this employee will retire.

According to officials with the Caldwell Assessor's Office, there will be no fiscal impact as a result of this measure. Caldwell is currently paying for these insurance premiums for their one retiree. They do not have any other employees that this measure will impact over the next 5 fiscal years.

REVENUE EXPLANATION

There is no anticipated direct material effect on local government revenues as a result of this measure.
